

- Acetyl-L-carnitine 154
 Achromatic perimetry 202
 A constant, intraocular lenses 390
 Acute retinal necrosis 272
 Adjustable intraocular lens 362
 Adrenomedullin 107
 Age-related macular degeneration 154, 214, 303
 Agreement, intraocular pressure measurements 36
 Amniotic membrane 297
 Ankle-brachial index 334
 Anterior segment surgery 129
 Antibiotics, neonatal chlamydial conjunctivitis 232
 Antioxidants 49, 309
 Aponeurosis advancement 129
 Apoptosis 1
 Aqueous flare 21
 – humor outflow 357
 Argon laser 267
 Arterial stiffness 334
 Arteriosclerosis 334
 Arteriovenous crossing 386
 Astrocytic hamartoma 350
 Autofluorescence, astrocytic hamartoma 350
- Basal cell carcinoma 57
 Blepharoplasty 185
 Blepharoptosis 129
 Blindness 345
 Blood-aqueous barrier 21
 Blood flow, normal-tension glaucoma 317
 Blue-on-yellow perimetry 202
 Branch retinal vein obstruction 386
 – – – occlusion 267, 334
 Bupivacaine 167
- Cataract prevention/reversal 309
 – surgery 167, 362, 390
 CD44 receptors 287
 Central retinal vein occlusion 267
 – serous chorioretinopathy 202
 Cerebral-cortex-derived neural stem cells 171
 Cerebrospinal fluid 101
Chlamydia pneumoniae 232
 – *trachomatis* 232
 Chorioretinal venous anastomosis 267
 Choroid 287
 Choroidal neovascular membranes 214
- Chromovitrectomy 251
 Clinical trial, age-related macular degeneration 154
 Coats' disease 401
 Coenzyme Q10 154
 Conjunctival malignancy 177
 Contact lenses 72
 Continuous circular capsulorhexis 338
 Cornea 324
 Corneal flap 276
 Cryptococcosis 101
 Cyclooxygenase 2 inhibitor 243
- Dacryocystorhinostomy, long-term patient satisfaction 97
 Decentration, intraocular lens 26
 Deep sclerectomy 281
 Diabetes 1, 394
 Diabetic cataracts 309
 – macular edema 86, 206
 – maculopathy 16
 – retinopathy 107, 292
 – – screening 292
 Diffuse macular edema 394
 Digital subtraction angiogram 136
 Dissociated optic nerve fiber layer appearance 206
 Driving abilities 191
 Drusen 154
 Dry eye 276
- Elderly patients, psuedouveitis/uveitis 263
 Electrolytes 142
 Emmetropization 226
 Encephalitis 119
 Endoillumination 338
 Epiphora 136
 Episcleral venous pressure 357
 Evisceration 177
 Exenteration 177
 Exodeviation 237
 Exophthalmos 181
 Eyelid 57
 Eye stabilization 401
- Fatty acids (n-3) 154
 Fibrous dysplasia 181
 Fixation stability 16
 Fluorescein angiography 86, 303, 350, 366
 Foveal exudate 366
 Fuchs' heterochromic uveitis 21
 Fucose 324
- Functional magnetic resonance imaging, lateral geniculate nucleus function 11
- Glaucoma 1, 26, 357, 373, 413
 Growth hormone deficiency 226
- Healthy menstruating women, visual field changes 30
 Hepatitis B virus 93
 Herpes zoster ophthalmicus 272
 High altitude, macula changes 404
 Hinge position, dry eye 276
 Homelessness, eye disease risk 345
 Homonymous hemianopia 11
 Hyaluronan 287
 – synthetase 287
 Hypertension 366
- Indocyanine green angiography 303, 350
 – –, macular hole treatment 251
 Influenza 119
 Informed consent, blepharoptosis 129
 Internal limiting membrane 251
 – – – removal 206
 Intracameral anesthesia 167
 Intraocular lenses 72, 362, 390
 – methotrexate 54
 – pressure 36, 317, 413
 Intravitreal cortisone 394
 – triamcinolone 413
- Lacrimal draining system 136
 – pathway obstruction 232
 – stenosis 136
 Large initial overcorrection, exotropia surgery 237
 Laser in situ keratomileusis 276
 – photocoagulation 401
 Lateral geniculate nucleus 11
 Lens power calculation formulas 390
 Leptin 107
 Lidocaine gel 167
 Light sensitivity 16
 Limbal stem cell transplantation 297
 α -Lipoic acid 49
 Long-term vitreous replacement 147
- Macula dysfunction 404
 Macular hole 251
 Matrix metalloprotease-9 upregulation 324
 Microperimetry, diabetic maculopathy 16

- Mitochondria 154
Mitomycin C 281
Mouse model, cataract formation inhibition 309
Multifocal electroretinography 404
Multiple myeloma 43
- Nasolacrimal duct obstruction 142
Neonatal conjunctivitis 232
Non-mydratic digital photography, diabetic retinopathy screening 292
Normal-tension glaucoma 317
- Oblique vision 115
Occult choroidal neovascularization 303
Ocular burns 297
Open-angle glaucoma 1
Optical coherence tomography 80, 86, 379, 404
Optic nerve atrophy 345
– – head photography 80
Orbital compression 181
– invasion, conjunctival squamous cell carcinoma 177
Oxidative stress 309
- Palinopsia 115
Paracentral scotoma 191
Pars plana vitrectomy 206
Pediatric benign lid lesions 112
– cataract 72
Peduncular hallucinosis 115
Perfluorohexyloctane (F₆H₈) 147
Perimetry simulation 123
Perioperative posterior ischemic optic neuropathy 185
Perisim 2000 123
Phacoemulsification 21, 338
- Phacotrabeulectomy 26
Photoreceptors 171
Poverty, eye disease risk 345
Pregnancy, intraocular pressure measurements 36
Proliferative vitreoretinopathy 107
Pseudouveitis 263
Psoralen-UVA therapy, oxidative damage 49
Pulse wave velocity, brachial ankle 334
Punch trabeculectomy 281
Pyruvate 309
- Reconstructive surgery, eyelid malignancies 57
Refraction 226
Refractive lens surgery 362
Retinal arterial macroaneurysms 366
– choroidal anastomosis 303
– nerve fiber layer thickness 80, 379
– stem cells 171
– thickness 379
– vascular anomalous complex 303
– vein occlusion 243
– vessels 386
Retinitis 119
Retrograde degeneration, lateral geniculate nucleus 11
Rhegmatogenous retinal detachment 222
Rofecoxib 243
- Short-wavelength perimetry, healthy menstruating women 30
Silicone oil 147
Slit-lamp biomicroscopy, diabetic retinopathy 292
- Squamous cell carcinoma 177
Standard achromatic perimetry, healthy menstruating women 30
STAT3 protein 214
Subepidermal calcified nodules 112
Subretinal fluid 222
– strand 222
- Tear proteins 142
Tenascin 214
Tendency-oriented perimetry program 123
Three-dimensional dacryocystography 136
– rotational angiography 136
Topical anesthesia, cataract surgery 167
Transforming growth factors 171, 222
Trypan blue 338
Tuberous sclerosis 350
- Ultraviolet A radiation, oxidative damage 49
Uveitis 54, 263
- Varicella-zoster virus 272
Vioxx 243
Viral infection, retinitis 119
Visual acuity 86, 154
– cortex 11
– field 154, 373
– – defects, central/paracentral 191
– hallucinations 115
– loss 185
– pseudohallucinations 115
Vitreous 93
– hemorrhage 338
- Wound healing 324
