## The Cloaking of Power

*Montesquieu, Blackstone, and the Rise of Judicial Activism*

**Paul O. Carrese**

"It is rare and praiseworthy when a book shows something new about a great author and about the ideas we live by. Original for its energy, pertinence, and intelligence, Paul Carrese's *The Cloaking of Power* will be an important book on Montesquieu and on Montesquieu's Anglo-American legacy. Everyone sees the importance of the judiciary for Montesquieu, but no one has put the point in focus and developed it as has Carrese. This will be an interpretation with which everyone will now have to contend."

Harvey Mansfield, Harvard University

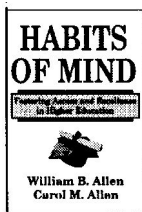

"A masterwork of intellectual and political history."

## Habits of Mind

Fostering Access and Excellence in Higher Education

*William B. Allen and Carol M. Allen*

ISBN: 0-7658-0184-1 (cloth) 2003 292 pp. \$34.95 / £29.95

In this book the authors assert that in the twenty-first century the college diploma has rightly become what the high school diploma was in the twentieth century—the norm. Predicting a world in which everyone goes to college, they argue that access of this magnitude need not be achieved at the cost of diminished excellence.
