

# The Importance of CRIS in Promoting the Visibility of Data Publications

# Benefits of Visibility

# What is a CRIS?

*Interlinked metadata on:*

Researcher

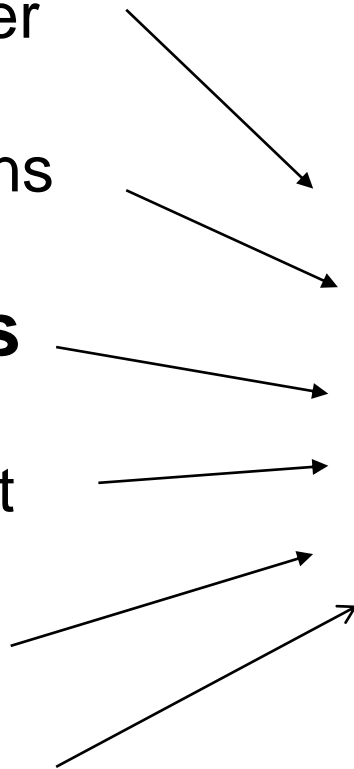

Publications

**Datasets**

Equipment

Projects

Activities

*Multifunctional use for:*

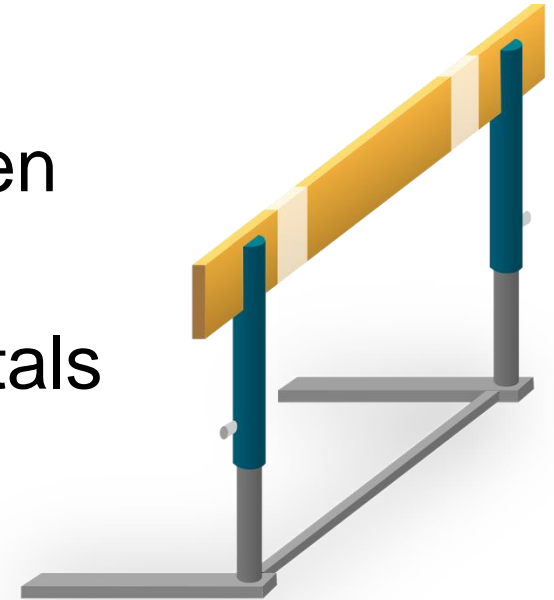

**Reports &  
Research  
Assessment**

**Showcasing  
Research  
in Webportals**

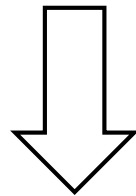

# CRIS & Datasets

## – Current Status

- Only 16% interoperability between data repositories and CRIS
- Less than 10% of CRIS web portals have datasets as content type
- Caused by ...
  - weak data policies
  - missing incentives
  - technical challenges

# Generic Solution for Metadata Import of Data Sets into CRIS

CRIS (Pure)

# Where are we now?

- Integration of Datacite with Pure is competing with
  - other requirements for CRIS development
  - commercial interests (Mendeley Data)

We are still dedicated to this solution!

CRISs are important for the visibility of data sets

- Get in touch with your local CRIS team
- We need to integrate Datacite with Pure
