**We're letting
the news
get around**

For the first time, **american libraries** is available to *all* libraries—on subscription. (And, of course, anyone can have it as part of ALA membership, now available at a new low cost for individuals.)

What's more, **american libraries** is launching out in a bold new direction never fully achieved in the library press: Association, professional, national and local news without tears. Who says an official journal has to be dull? Not the new AL editor, who brings two Educational Press Association Awards of his own to add to the six that AL won last year.

There'll be plenty of hard news in AL these hard times. Isn't it good news that you can subscribe for your library by just checking the form below?
