We've *talked* about goals and how to improve instruction in use of libraries. We're no longer talking, but going all the way with media this year. Explore techniques for communicating information with us this summer. Can you spare only twenty minutes for some practical help? We'll have continuous showing of tapes, slides, etc., Wednesday night and Thursday morning. Computer demonstrations, video taping discussions. Compare, evaluate, stay as long as you like. Seek advice from our consultants, a rare opportunity. Ask about costs, choice of format, point of use vs large group. Get "hands on" experience with the equipment and materials. Catalogs with complete information to all participants. ■■
