NOTICE

Respondents to advertisers offering faculty "rank" and "status" are advised that these terms are ambiguous and should inquire as to benefits involved.

All advertisements submitted by institutions offering positions must include a salary range. The range should provide the applicant with an indication of the salary the institution is willing to provide for the position offered.

All advertisements for the Positions Wanted and the Positions Open classifications will be edited to exclude direct or indirect references to race, creed, color, age, and sex as conditions of employment.

Classified advertising orders and copy, and cancellations, should be addressed to the Advertising Department, 50 East Huron Street, Chicago 60611, and should reach that office before the tenth of the month preceding publication of issue desired. Copy received after that time may be held for the next issue.

Rate for classified advertising is \$1.25 per printed line. No additional charge is made for nonmember advertising.

LAWRENCE UNIVERSITY invites candidates for the position of University Librarian. The successful candidate will have a capacity for learned attention to the needs of a scholarly community of 1,500 people. Various qualities will count in the candidate's favor: a degree in library science, a graduate degree in a liberal arts discipline, service in an undergraduate library, a thorough understanding of contemporary information technology, evidence of compassionate management of staff, and the ability to distinguish a library from its books. The candidate will probably have to work on a major expansion of the library building as well as on the concept of a University library. The University is an equal opportunity employer. Academic rank and faculty privileges naturally accompany the position. Salary is a matter best discussed individually, though it is reasonable to anticipate a figure between \$13,000 and \$20,000. If you are interested, please write Thomas E. Headrick, Vice President for Academic Affairs, Lawrence University, Appleton, Wisconsin 54911.

LET US REPLACE YOUR CARD CATALOG WITH AN INEXPENSIVE PAPERBACK.

If you've wanted to convert to a book catalog but haven't because of economic considerations, we'd like to talk to you about your economics.

It does cost something initially to change over. But the statistics indicate that you get it all back.

Based on 1970 contracts, the average cost per title for all our book catalog customers came to under \$1.25.

But for libraries still using card catalogs—even if they actually catalog only 20% of their acquisitions—the cost comes out to something like \$2.60 per title. If you have 7,000 new acquisitions a year, for example, you save \$9,450. (A book catalog will require periodic

accumulations, of course. But even with this expense, most libraries come out ahead.)

Besides saving you money, a book catalog lets you do things you couldn't do with a card catalog at any price. Such as making a virtually limitless number of copies. And sending copies out of the library to interested teachers, students, and other librarians.

For complete facts and figures, write us.

We're not suggesting that a book catalog will make your library rich. But the way costs are going up, it could be the only thing in your library keeping it from growing poor.

NEW EDITION OF AID HAS 90% MORE TERMS

AID-3 is a strikingly new work that promises to be even more valuable than its heavily consulted predecessors. This reliable reference source contains over 80,000 entries, almost twice as many as the second *AID*. Since page size has been increased to 8½" x 11" with two columns to the page, nearly four times more terms are scannable on each page. Issues of *New Acronyms and Initialisms*, supplements to *AID-3*, are planned for 1971 and 1972; each issue of *NAI* will add about 12,500 new entries. (Supplements are paperbound; \$15.00 each.)

COVERAGE OF SPECIALIZED FIELDS MORE EXTENSIVE

The great advances made recently in such fields as data processing, aerospace technology, and military affairs have prompted the creation of numerous acronyms for new projects and equipment.

The Apollo moon flights, for instance, introduced many new terms which were unknown when the second *AID* was published five years ago. These include BIG—Biological Isolation Garment; LOI—Lunar Orbit Insertion; and SRT—Sample Rock Container. Examples of other fresh material in *AID-3* are the Motion Picture Association ratings (X, GP, etc.); the official Post Office two-letter designations for states; and the abbreviations for hundreds of religious orders.

Acronyms And Initialisms Dictionary —New Edition

"PREFABRICATED" TERMS GAIN POPULARITY

If they are to be successful, current projects, movements, and other types of activities must be quickly identified by the public. To achieve this end, eye-catching acronyms are often coined first and then fleshed out with more-or-less appropriate words. *AID-3* presents many new examples of this type of acronym. For example, from the fields of ecology and conservation come such terms as GOO—Get Oil Out; YUK—Youth Uncovering Krud; and ENACT—Environmental Action. The great sex education debate has given birth to MOMS—Mothers for Moral Stability; SDS—Sanity on Sex; and POSSE—Parents Opposed to Sex and Sensitivity Training.

ENTRIES REFLECT CONTEMPORARY CONCERNS

All of modern man's interests, aims, and problems are represented in the many new entries in *AID-3* that refer to social and political groups and developments. For example, the flourishing Women's Liberation Movement has fostered such groups as NOW—National Organization for Women; POWER—Professionals Organized for Women's Equal Rights; and OWL—Older Women's Liberation. Those opposed to the Movement have banded together to form such organizations as THEN—Those Hags Encourage Neuterism; WOW—Women Our Wonders; and MDM—Men Our Masters. These sample entries indicate the timely, essential nature of the vast amount of information contained in *AID-3*.
