

Middle East Medievalists (MEM) is an international professional non-profit association of scholars interested in the study of the medieval Middle East, expansively defined to include all geographies with prominent Muslim political, religious, or social presences between 500-1500 CE. MEM has two primary goals. The first is to increase the representation of medieval scholarship at scholarly meetings by co-sponsoring panels. The second is to foster communication among individuals and organizations with an interest in the study of the medieval Middle East.
