Pre-Reading Questions:

- Do you think it is smart to take advice from your parents? Why or why not?
- Why is it important to finish school?

Long ago, there was a boy named John whose parents were teachers. He was a good student. He never arrived late to school. He was punctual, obedient, studious, and always smart.

One day, his parents asked him, “Dear son, what do you intend to do in the future, after finishing your studies?”

“I will become a **journalist**,” he replied.

His parents liked his idea. They encouraged him to pursue a job in journalism by providing him with all the necessary materials and by not allowing him to be absent from school.

John was motivated. He took his parents’ advice and decided to successfully finish his studies. At the end of his schooling, his success was so great that he received a college scholarship from the government.

Finally, due to his determination and active participation at school, John became a journalist as he had planned. Good planning and studying will make you an important member of your family, of your society, and of your country.
