ALISHER NAVOI'S ABOUT SCIENC VIEWS

Djaksilikova Aygerim

Nukus State Pedagogical Institute, Faculty of Turkish Languages, Kazakh language and literature, 2nd year student

ANNOTATION: This in the article , Medium in Asia to science has been attention in the development of science Alisher Navoi's added contribution Writer in his works of people to science has been love about word is conducted .

KEY WORDS: Alisher Navoi , science , manners , Khorasan

The Timurids kingdom period East countries between second renaissance, that is waking up to the period right Renaissance is coming a person glorify, his talent, mental, intellectual opportunities surface release, literature and in art worldly beauty, life their taronas hot sing, human man for is to fight . Wake up period not only maybe in our region very big geographical in the regions political and economic and social reforms done increased great our grandfather Amir Temur name with dependent.U breed because of powerful central to management based on state and new cultural and scientific rising for comfortable situation surface came. Host own endless of the kingdom big to their cities different talented scientists, poets summed up and the progress of science , its each bias development for necessary all conditions by creating gave. Such reasonable politics Amir Temur descendants of the country scientific and cultural power strengthened. Including Owner's generation to be the king Hussein Baigaro during this period value , that is knowledge is for enlightenment attention high way was. Alisher Navoi, Abdurrahman Jami is exactly the same that's it period living weighty creativity did

Literature development for own contribution added Alisher Navoi's this waking up during place separately important has. Here that's it at the time, the Timurids rulership during Medium Asia peoples literature artistic style in terms of improved, new to the step rose.In prose and many in poetry works created. Artistic of literature development with organic connected without Literary studies are also progressive it is rare works written. This period Uzbek poets inside Navoi his own priceless works with separately place holds. Poet lifetime during differently in topics many works created. Especially young people bring up to work separately attention gave.U people science, work to love therefore studied science and craft people, homeland on the way spend to do the necessity of his life until the end knowledge take a book reading need threw. Hazrat Navoi only knowledge, enlightenment about thoughts forward pushed.U intelligence, knowledge of a person the most beautiful and necessary qualities one, each one person's the most important duty knowledge to get emphasizes. The writer in his opinion, science take over for from youth starting from diligently study, study, knowledge get need

In your youth cry knowledge ,

When you get old spend do it immediately

said of the poet too much from a young age education he takes it, he tries hard with attention to study turns. Poet education about thoughts more perfect a person expressive positive images Create through statement does. Science, enlightenment, morals issues circle thoughts while scientific and philosophical and didactic in his works open gives.U mind to the power very believes and trust with virtue of science extremely as big counts .

Great word artist and thinker his own one how much in his works young people education , knowledge get about thoughts to say only with satisfied without staying, maybe

" Surprise ul-abror ", " Fahad and Shirin ", " Beloved like " ul-qulub ". of his works some chapters that's it to the matter dedicates " Surprise ul-abror » philosophical and educational is an epic. Navoi this in his work philosophical , social and political and to people education fertilizer to give issues big attention especially the poet manners and humility, knowledge benefit, knowledge get on the way difficulties and poor of students this on the way smoked sufferings about in detail stopping passes . " Surprise ul-abror » epic one how many chapters manners and to education about feedback statement done

Writer of the epic ten the first in the department to science , science to the people high price gives people science to get scientists respect to do calls. That with together writer that's it period of young people science get on the way smoked from the hardships of the people of science in need from those who lived regrets smokes. Poet from science in practice use necessity states :

Ilm , Navoi, to you purpose know

Now science died action aylagil

of the epic this in the department as follows bring thoughts too passes : « In science one man host until thirty in one period coming need. Then his happy science location, science in fact, his one drop body science to the river becomes. Science his his heart one to the world turn it into one to the drop whole one the river hides :

Happy being place the fruit science

Drop like look Dargoi science

The poet's " Farhad and "Shirin" saga love and loyalty, patriotism and heroism ideas my praise reached is epic. Writer Farhad's childhood since time immemorial knowledge is for craft and work was born love Excellent skill and deep sincerity with described by the poet Farhad in the form of perfect a person the ideal open gives. This in the epic hero his own Faith is a belief, science is a craft and pure heart with to achieve own to the front the goal by doing Farhad character the most higher trait science is a craft was born is love. Alisher Navoi Farhad image to the student introduces it's his the most higher virtue as to science love feeling light up gives. Farhad own teachers bollywood From Moni, Boni, Koran learned science, crafts sincerity with to the heart absorbs. As a result the most complicated sciences to him their secrets opens. That with together that's it period people deep, deep trainings They were sometimes own to those who read they did not understand one at the time His Holiness Navoi people to science diligent to do, read of books meaning understand to get from it was :

Reading pass , hear to pass motto ,

By doing in mind step by step go

That's it the way a poet Farhad his life such live on the plates describe through children education separately attention to give calls to people science to teach importance states. Adib young generation science thorough to take over call it great teacher and coach as them bring up and grow up the ways shows The poet's " Beloved". ul-qulub's work while socio-political and moral views statement done with It is interesting. The work three from the part consists of. Book the first part « People situation and good and of your mind mood » ie of people character and conversations importance is about Navoi wise man and coach as science , literature importance promote does, qualified and talented people praises them respect to do and to appreciate calls. Science learning and teaching is difficult and responsible work, u diligent and work Demand says that it is enough poet. This there are coaches honest services separately states :

Right on the way who to you one letter have taught hurt with

Spin his eternal perfection about face gang with

of the book second part mostly moral to issues dedicated. This in chapter good and bad qualities, knowledge get about issues analysis will be done . Rather in man to be need was born qualities it is about . Science about if as follows describes :

El's fault don't say someone , help me language ,

Own the fault exposed turn around language hold on , you know .

That is science take action did not person the earth driving to the one who did not sow the seed or Sow the seed from the seed harvest to the one who didn't get it looks like

Various useful tips and called proverbs the third in the part more knowledge get, study, work the owner to be like issues to the middle thrown. This in chapter people oral from his creation use with together itself is educational important have to proverbs near was born one how much proverbs with science about

thoughts light up will give .

In his works science about given definitions and him take over about pand - it can be seen from the advices as Navoi knowledge is enlightenment from Ziya everyone's enjoy to be own to the front the goal by doing put. And exactly that's it issue own in his work light up gave. This about his student to be Ghiaziddin Khondamir his " Makorim in the work " Ul-Akhlaq ". Navoi's to students machit, madrassas that they built education take for each bias help that he gave cause passes. Adib in his works this parables today's even in the day the effect is giving. That is development of science for our country by all measures seeing coming out. That's why we are young only the generation forward let's go bright the future for step let's throw a must
