Abstract : Independence in the years In Uzbekistan done increasing to the youth related state in politics deep transformation observation possible . The transition of global processes in society as a result to him/her relatively strict in order young people Socialization has also changed dramatically. This is going on . in the article In Uzbekistan to the youth being created opportunities and reforms this with together youth spirituality promotion issues vital examples based on illuminating given .

Key words : independence , youth , globalization , transformation , socialization , reform , constitution .

Secular from progress It is known that young people all in periods society active layer as confession has been reached . In this respect regular formed going this layer permanent directing and supporting It requires standing . About this our state leader Shavkat Mirziyoy 's interpretation with saying : " Great Greek scientist , " First in the East " " teacher " is a term used to describe someone who is honored Aristotle 's " Homeland " fate youth upbringing solution " does " , that is words , see , 350 BC before It is said that humanity conscious life is short started from the era since education and upbringing issue , always current importance profession is coming . Consequently , independence and responsibility responsibility deep understood him/her conscientious the youth upbringing today's of the day current task is considered .

The Republic of Uzbekistan " For Youth " related state policy "about" law today's period requirements suitable comprehensively competent , independent thinking , our country perspective for responsibility own on behalf of to take capable , enterprising , people interest on the way there is potential mobilized ambitious , ambitious the youth education , their intellectual and creative potential to come true release for solid legal found created ”. To the youth was attention our state by take going socio-political reforms in the center that separately to confession is a property .

World population about 20 percent youth organization does . In Uzbekistan and this indicator from 60 percent increases . Youth our people , our state priceless wealth . They for all conditions created , opportunities door wide opened . Independence during In Uzbekistan done increasing to the youth related state in politics deep transformation observation possible . The transition of global processes in society as a result to him/her relatively strict in order young people Socialization has also changed dramatically. is going on .

About this , the Republic of Uzbekistan President Shavkat Mirziyoyev : “ Independence initial from the years starting in our country youth about attention and care to show state of the policy the most main and priority from directions one as " It's being looked at , " he said . emphasizes . Zero , today 's fast developing globalization conditions youth policy in the matter of separately attention focus task day in order is putting . Current

globalization period and time intellectual demand potential , creative thinker the youth upbringing to think about requirement is doing . For this reason of the youth social activity coordination , their spiritual-enlightenment , ideological - ideological immune system formation to the issues separately attention focus important importance profession will reach . Our youth for today's on the day all the conditions to create State at the level importance aimed at and this as a result our future owners in the world the most strong that they are to show We believe ! Dear youth , in the Constitution youth issues according to a separate chapter has been included separately our emphasis must . State continuous education system , its various types and forms , state and non-governmental education organizations development provides . In the goods Everyone in the Constitution education to take right ownership designated although , this the right done increase main from mechanisms one was continuous education system develop regarding of the state obligations unmarked was To this end state on behalf of citizens education to take the right to come true release for necessary was education system , continuous of education types and forms develop task loading .

This simple words with as follows explanation possible . Now state education field in development accent only to general education not , maybe of education all to the types babbarvar attention citizen from birth starting whole life during good quality education to receive for conditions creates . This for not only state education institutions , but of education non-governmental to develop the shape as well responsible It will be . Through this in the citizen the most good quality education to take for competitive choice opportunity appearance will be . New in edit In our Constitution education to take the right supply , continuous education system from the forms one as state education organizations with one in line non-governmental education organizations development state own on behalf of is taking .

Come on this about clear to the imagination has let's be for You with this industry before where in the situation was , now how and in the future how it will be , to questions answer looking for Let's see . Example for , before supreme education to take at will was in applicants choice somewhat limited was . The reason they wanted direction only one supreme education in the institution it would be or it wouldn't exist either . Just one supreme education in the example of take Let's see , the last academic year is 2022-2023 . for supreme education to take at will was applicants number 1 million 200 thousand the rest organization to universities acceptance last six 5 times a year increasing , students number 1 million reached . Coverage and from 9 percent to 38 percent increased . Example for , 77 higher education institutions in 2016 education organization activity carried if so , by 2023 their number exceeded 200 , of which 40 non-governmental supreme education is an organization .

Today time youth advanced thoughtful , determined , self- reliant goal - oriented , independent decision acceptance can problem positive detachable individuals to be Education in the field new in edit To the Constitution being introduced news and exactly so mature , perfect generation to educate service Also , Article 79 of our Constitution states that the State of the youth intellectual , creative , physical and moral in terms of formation and development for them education to take , to save , to house , to work to settle down , to be employed and to relax was rights done increase for conditions creation by designating placed .

New in edit For the first time in our Constitution state of the youth education to take , to save , to house , to work to settle down , to be employed and to rest was rights to come true release for conditions create constitutional at the level is strengthening . Come on this from rights one was of the youth to work location and employment rights about thinking Today 's on the day In Uzbekistan of the youth employment rate of 30.9 percent organization is doing . at the

time this The figure is 27 percent in the Russian Federation , and 27 percent in Europe. Union in the territory and 32 percent correct comes . Production issued employment national strategy by 2030 within the framework the youth to the profession 200 thousand people are trained every year to someone to deliver planned .

It is known that young people his/ her own age because of discrimination and from rights in use to obstacles face arrival it is possible , this and their opportunities In particular , education institution finally , first there is work looking for , term military the service passed of the youth to work in the location artificial to obstacles meeting cases there is .

Conclusion as telling if we are to the family material help to give wanted or just now supreme education institution graduated arrived the youth work providers are not very " welcoming ". However , in practice labor legislation according to ten five to age full then from their parents one of or of parents instead clicker from individuals one of writing consent with or students also study outside at the time easily labor contract based on their work possible . Now work providers youth with without counting possible No. Because of the youth this rights constitutional at the level by designating was put .
