

LIFE LINES

Xue Bai received her bachelor's degree in 2011 from the Leather Engineering Department of Shaanxi University of Science and Technology, China. Now as a master-doctoral student in the Key Laboratory of Leather Chemistry and Engineering of Ministry of Education in Sichuan University, she is working on the development of chromium-free tanning process.

Jinming Chang. As a junior student in Biomass and Leather Engineering Department of Sichuan University, he is working on environmentally friendly leather making technology under the supervision of Professor Haojun Fan.

Ali Yorgancioglu graduated as the top student in 2007 from Ege University Engineering Faculty, Department of Leather Engineering. He received his master's degree in the same department in Izmir, Turkey. Since then he has been pursuing his PhD degree. He is working on supercritical fluid technology for the doctorate thesis. He worked in the laboratory of Karakoc chemicals for four months. Now, he is working as a research assistant in Ege University Engineering Faculty Department of Leather Engineering in Turkey.

Ersin Onem graduated as a top student from Ege University Engineering Faculty, Department of Leather Engineering in 2006. He received his master's degree in the same department in Izmir, Turkey. Since then he has been pursuing his PhD degree. He worked in the laboratory of TFL for four months. Now, he is working as a research assistant in Ege University, Engineering Faculty, Department of Leather Engineering.

Shan Cao is studying for the doctor degree in the school of leather chemistry and engineering, Tianjin University of Science and Technology, Tianjin, China.

His areas of research are leather chemistry, tanning synthesis and tannery wastewater treatment.

Cheng Baozhen is a professor at Tianjin University - Technology, Tianjin, P.R. China. His research focus is on reuse and recycling of chrome tanning wastewater and shavings.

Baozhen Cheng is a University of Science & Technology Ph.D. supervisor.

Major research areas:

1. Development of environmentally friendly chrome tanning agent.
2. Research of new technology about clean leather production.

Qiaoe Wang Received the master's degree in leather chemistry and engineering from Sichuan University in 2001, and the PhD degree of Analytical Chemistry from Xiamen University. She completed her post-doctoral fellowship at Tsinghua University from 2006 to 2008. She is now a lecturer at the Beijing Technology and Business University.

Bing Liu is presently studying for the doctor degree at the Leiden Institute of Chemistry, Leiden University. Research areas are organic synthesis, interaction of protein and lingers.

CALL FOR PAPERS
FOR THE 110TH ANNUAL MEETING OF THE
AMERICAN LEATHER CHEMISTS ASSOCIATION
GIDEON PUTNAM RESORT, SARATOGA SPRINGS, NY
JUNE 18-20, 2014

If you have recently completed or will shortly be completing research studies relevant to hide preservation, hide and leather defects, leather manufacturing technology, new product development, tannery equipment development, leather properties and specifications, tannery environmental management, or other related subjects, you are encouraged to present the results of this research at the next annual convention of the Association to be held at the Gideon Putnam Resort, Saratoga Springs, NY, June 18 - 20, 2014.

Abstracts are due by April 1, 2014.
Full Presentations are due by June 1, 2014.

They are to be submitted by e-mail to the ALCA Vice-President and Chair of the Technical Program:

Sarah Drayna,
LAXNESS Corporation
6150 S. Conservancy Dr.
New Berlin, WI 53151
E-mail: sarah.drayna@lanxess.com

The Abstract should begin with the title in capital letters, followed by the authors' names. An asterisk should denote the name of the speaker, and contact information should be provided that includes an e-mail address. The abstract should be no longer than 300 English words, and in the Microsoft Word format.

Full Presentations at the convention will be limited to 25 minutes. In accordance with the Association Bylaws, all presentations are considered for publication by *The Journal of the American Leather Chemists Association*. They are not to be published elsewhere, other than in abstract form, without permission of the *Journal* Editor. For further paper preparation guidelines please refer to the *JALCA* Publication Policy on our website: **leatherchemists.org**.

Managing Editor (Name and complete mailing address)
none

10. Owner (Do not leave blank. If the publication is owned by a corporation, give the name and address of the corporation immediately followed by the names and addresses of all stockholders owning or holding 1 percent or more of the total amount of stock. If not owned by a corporation, give the names and addresses of the individual owners. If owned by a partnership or other unincorporated firm, give its name and address as well as those of each individual owner. If the publication is published by a nonprofit organization, give its name and address.)

Full Name	Complete Mailing Address
The American Leather Chemists Association	1314 50th Street, Suite 103 Lubbock, TX 79412-2940

11. Known Bondholders, Mortgagees, and Other Security Holders Owning or Holding 1 Percent or More of Total Amount of Bonds, Mortgages, or Other Securities. If none, check box None

Full Name	Complete Mailing Address

12. Tax Status (For completion by nonprofit organizations authorized to mail at nonprofit rates) (Check one)
The purpose, function, and nonprofit status of this organization and the exempt status for federal income tax purposes:
 Has Not Changed During Preceding 12 Months
 Has Changed During Preceding 12 Months (Publisher must submit explanation of change with this statement)

13. Publication Title The Journal of The American Leather Chemists Association		14. Issue Date for Circulation Data Below September 2013 Issue	
15. Extent and Nature of Circulation		Average No. Copies Each Issue During Preceding 12 Months	No. Copies of Single Issue Published Nearest to Filing Date
a. Total Number of Copies (<i>Net press run</i>)		211	210
b. Paid Circulation (<i>By Mail and Outside the Mail</i>)	(1) Mailed Outside-County Paid Subscriptions Stated on PS Form 3541 (Include paid distribution above nominal rate, advertiser's proof copies, and exchange copies)	75	75
	(2) Mailed In-County Paid Subscriptions Stated on PS Form 3541 (<i>Include paid distribution above nominal rate, advertiser's proof copies, and exchange copies</i>)	0	0
	(3) Paid Distribution Outside the Mails Including Sales Through Dealers and Carriers, Street Vendors, Counter Sales, and Other Paid Distribution Outside USPS®	0	0
	(4) Paid Distribution by Other Classes of Mail Through the USPS (e.g., First-Class Mail®)	101	100
c. Total Paid Distribution (<i>Sum of 15b (1), (2), (3), and (4)</i>)		176	175
d. Free or Nominal Rate Distribution (<i>By Mail and Outside the Mail</i>)	(1) Free or Nominal Rate Outside-County Copies included on PS Form 3541	0	0
	(2) Free or Nominal Rate In-County Copies included on PS Form 3541	0	0
	(3) Free or Nominal Rate Copies Mailed at Other Classes Through the USPS (e.g., First-Class Mail)	0	0
	(4) Free or Nominal Rate Distribution Outside the Mail (<i>Carriers or other means</i>)	0	0
e. Total Free or Nominal Rate Distribution (<i>Sum of 15d (1), (2), (3) and (4)</i>)		0	0
f. Total Distribution (<i>Sum of 15c and 15e</i>)		176	175
g. Copies not Distributed (<i>See Instructions to Publishers #4 (page #3)</i>)		35	35
h. Total (<i>Sum of 15f and g</i>)		211	210
i. Percent Paid (<i>15c divided by 15f times 100</i>)		100	100
16. <input type="checkbox"/> Total circulation includes electronic copies. Report circulation on PS Form 3526-X worksheet.			

17. Publication of Statement of Ownership

If the publication is a general publication, publication of this statement is required. Will be printed
in the **Nov. 2013** issue of this publication.

Publication not required.

18. Signature and Title of Editor, Publisher, Business Manager, or Owner

Carol Adcock

**Carol Adcock
Executive Secretary**

Few people realize that Leather Making is the world's oldest manufacturing process, thus the world's oldest industry. Tanning—the process of converting hides and skins into leather—is also the world's first science.

Also, because of the pure craftsmanship involved, tanning may well be the world's first art form.

Generations.
Let's make the next better.
It's your turn now.

Our **waterbased polyurethane technology** offers a safer, more environmentally friendly solution to your high-performance coatings requirements.
