

The Measure: A Journal of Undergraduate Research, is a refereed journal dedicated to publishing undergraduate research from courses in the College of Humanities and Social Sciences at Sam Houston State University. Students enrolled in any CHSS course during the academic year are eligible to submit their work for publication consideration, whether or not they are majoring in one of the disciplines in the college. *The Measure* is guided by these central principles: undergraduate research is a vital component of higher education; students enhance their education when they engage in original research to make an intellectual contribution to the discipline; research shared with a broader audience enhances learning outcomes; and faculty members contribute to society when they involve undergraduates in research opportunities.
