Acknowledgments

This proceedings contains papers presented at the fifth conference on Semantics and Linguistic Theory, February 24-26, 1995, at the University of Texas at Austin. All but one of the papers given at the conference appear in this volume. The missing paper, Ray Jackendoff's "Conceptual Structure of Intending and Volitional Action," is to be published in a festschrift for Carlos Otero (Hector Campos and Paula Kempchinsky eds., Georgetown University Press). Also included here are two of the alternate papers for the conference. Thanks to all the authors for their cooperation in submitting camera-ready copy.

The conference was organized by Nicholas Asher and Manfred Krifka, with the extensive help of Minpyo Hong, Young-Eun Kim, Huei-Ling Lai, Yae-Sheik Lee, Brian Price, Gene Rohrbaugh, Mary Swift and Yae-Il Yeom. Many thanks to them for their hard work, and to the College of Liberal Arts of the University of Texas at Austin for providing the necessary funding. Thanks are also due to Robert King, and to the thirty-odd referees who did a wonderful job in sifting through, and commenting on, the 115 abstracts that were submitted.

Finally, thanks to the Department of Linguistics at Cornell University for making this publication possible.
