ACKNOWLEDGMENTS

This proceedings contains papers presented at the sixth conference on Semantics and Linguistic Theory, held on April 26-28, 1995, at Rutgers University. All but one of the papers given at the conference appear in this volume. The missing paper was presented by Kai von Stechow.

The conference was made possible by funds from the Faculty of Arts and Sciences, Office of the Vice President for Academic Affairs, Office of the Provost and Graduate School, Rutgers College, Center for Cognitive Science, and the Graduate School Association at Rutgers University. The organizers were Maria Bittner, Veneeta Dayal, Roger Schwarzschild, and Karina Wilkinson, who were supported by numerous graduate students and the Department of Linguistics at Rutgers University. Many thanks to them for their hard work, and to the reviewers who had the difficult job of choosing 18 abstracts out of the 112 submitted:
