Rural revitalization strategy is considered as an important measure in the realization of the modernization of socialism with Chinese characteristics, and rural education holds the balance in the strategy of rural revitalization. This article sticks to the “four confidences” from the perspective of the school, on the basis of the developing the happiness courses, contributing to the form of “triple learning across villages”, which is the new modality of rural curriculum education, and also exploring the new model of curriculum development featured rural characteristics, so as to devote to the new route of helping rural revitalization through education.

Keywords

Life Education, Happiness Course, Rural Revitalization
