Start think-keying	66-73
<i>Uni Carnegie</i>	

The *Australian Journal of Educational Technology* is published twice a year by AJET Publications. Manuscripts for publication should be sent to Associate Professor John Hedberg, Faculty of Education, University of Wollongong, P.O. Box 1144 (Northfields Avenue), Wollongong, N.S.W. 2500. Enquiries about subscriptions should be sent to the Business Manager, Mr James Steele, AJET Publications, PO Box 772 Belconnen, A.C.T. Australia, 2616. Subscription rate is \$30 per volume (\$45 foreign). Members of the Australian Society for Educational Technology receive an AJET subscription as a part of their membership fees.

Editorial

The biennial conference of the Australian Society for Educational Technology, *EdTech '90*, was held this year at the University of Sydney. Numbers were down on the previous conference held in Canberra in 1988, which is a reflection more of the straitened times than of the excellent preconference promotion of the event. Feedback the organisers received indicated that participants had indeed felt they gained value from the program, and deserve credit for their efforts. We all look forward to the next conference, in Adelaide in 1992.

The *Australian journal of Educational Technology*, although a little late this issue as a result of the guest editor leaving paid employment and setting up in business on his own, is now well on track to get back on schedule by the end of this year. This issue contains those papers from the conference which didn't make it into *Converging Technologies*, the conference proceedings. The next issue of the *Journal*, volume 6 number 2, will focus on Exploring the World of Performance Technology which was the title for the recent regional conference organised by the Sydney Chapter of the National Society for Performance and Instruction.

Guest editor for volume 7 number 1 will be Associate Professor Colin Latchem, Head of the Educational Media Centre at Curtin University, and as always contributions are welcomed from members of the Australian Society for Educational Technology and others interested in furthering knowledge of educational technology and instructional design.

James Steele
GUEST EDITOR

Editorial Advisory Panel

Robin Bishop, Correspondence School, Sydney
Andrew Grieg, University of Sydney
Colin Latchem, Curtin University of Technology
Sue McNamara, Monash University
Alex Millar, Victoria College
John Mitchell, Melbourne State College
