

Notes from the A.C.R.L. Office

The April issue of the *A.C.R.L. Newsletter* will appear in May because part of it will be given over to the ballot for the annual election of officers. Unlike most issues it will not be a preprint.

The Midwinter Meeting is reported extensively through various articles and news items in the *A.L.A. Bulletin* and in this issue of *College and Research Libraries*. Much of my time has been devoted recently to the subject of college and reference libraries in the present emergency. This seems sufficiently important to take up in detail here, with the hope that these comments, mostly arrived at independently, will elicit the criticism and counsel of readers so necessary for sound planning. No 1940-41 files provide the answers to our needs.

The United States obviously faces a long period of military economy. This entails increased taxation, reduced college enrolments, increasing costs of materials and decreasing quality, and shortages of trained personnel. Many libraries may be squeezed, and squeezed hard, from both ends. Should armed conflict break out directly with Russia, bombs will fall on industrial areas and those libraries and librarians located therein. Whether or not such bombing ever comes, some precautions ought to be taken against it.

The brighter side of the picture is the increased recognition of the importance of the battle of ideas and the need for education in its highest sense both at home and abroad. The library world is in a position to assume great leadership and make enormous contributions if it acts with inspiration and boldness. So far as I can see, the only certainty is that we can't stay where we are. If librarians don't march forward, they will be pushed way back in the next five years.

Physical Defense

Any planning for the physical defense of libraries ought to be limited to those located in principal target areas. The definition of target areas is important, as all too many people believe their towns have top priority for destruction by the enemy.

Planning for physical defense requires a timetable. In other words, protective meas-

ures will curtail service and cost money, and should not be taken, or taken too far, before there is clear and present danger. On the other hand, disaster is in store for him who waits too long.

The government may be prevailed upon to assist in a general way with the designation of principal target areas. I believe that any federal body would be extremely reluctant to risk a sudden drop in civilian morale and possible panic by stating publicly, in so much as a whisper, that a state of clear and present danger existed.

Strategic intelligence is largely a matter of careful study and interpretation of information that is freely available. Secret agents and hush-hush reports usually play their important roles in fiction. The library profession includes men and women with considerable historical background and military experience. Private advice can be obtained from government officials through personal contacts. In short, we have available our own means of arriving at reasonable definitions of target areas and of declaring a state of clear and present danger so far as the protection of library resources is concerned.

Many librarians will agree with me that unique and irreplaceable records of mankind are sometimes as important as human lives. These cultural treasures form only a very small part of any library (with few exceptions), and can be safeguarded at relatively small expense. Many of the great metropolitan libraries are individually finding room for their rare books in rural areas. A.C.R.L. and A.L.A. should therefore concentrate on helping smaller libraries find safe storage for their rare materials. We are at present cooperating with the American Association of Museums in an effort to get the government to provide a few regional depositories for cultural treasures. A clearing house of information for the protection of these rare materials would be of material assistance in advising on when, where, and what to move or how to safeguard, and related problems. The Library of Congress is now studying the experience of some European libraries in the last war for lessons which America might use.

There are a relatively few collections in college, public and special libraries which are absolutely essential to the government's research program. These unique collections are valuable, not because of individual rarities, but for the integrated whole, organized with catalogs, indexes, and staff for particular purposes. A great proportion are located in metropolitan areas, and must either be protected on the site, moved to rural areas, or filmed at enormous cost. They must be kept in operation.

The federal government will be vitally concerned with the safety of some collections and should provide for their protection. A.L.A. or A.C.R.L. should assist in the selection of collections for special protective measures.

While several publications provide guidance to library collections valuable for research, the emergence of "area study" programs (cutting across normal subject departments to study all phases of culture and enterprise in an area) indicates a need for a thorough guide to the best collections in this field, with detailed descriptions of document and periodical material collected since 1940.

We will all be concerned with the protection of staff, plant, and ordinary working collection. Leadership in this will necessarily come from local civil defense units and college administrations. I hope I err in not seeing practical steps which this association can take to assist all librarians with the protection of their buildings and contents.

Budgets

One leading American college has already cut its book budget to zero although its enrolment is not down 25 per cent. Others have been, or will be, nearly as drastic. Salaries will be cut in the face of rising costs, vital equipment eliminated, elementary repairs neglected. Yet these institutions will continue to demand as much, or nearly as much, from their libraries.

It is intolerable that any operating institution eliminate (or reduce to trivial proportions) the acquisition of current books. It is just as bad to reduce further the living scale of librarians.

Declines in institutional income inevitably mean cuts in library budgets, but we must and can keep things in proportion. Services

will have to be curtailed and positions eliminated, but salaries must be maintained. Buildings must be kept in repair.

The A.C.R.L. Committee on Budgets, Compensation, and Schemes of Service has already begun an investigation of the problem. It plans to keep a close watch on budgets, prepare flexible standards, and marshal the force of the association as necessary. A.C.R.L. will be serving the cause of American education by throwing its full weight against selfish interests which are blind to the role of the library and the need for continued maintenance of at least a small flow of new books, and a cadre of able staff.

Ideology

It is commonly acknowledged that the final outcome of the present struggle (tepid, cold or boiling hot) will be in the realm of ideas. The ardent faith of the Communist must be countered by a greater spiritual force. The peoples of the world require a prophet and will follow a false one rather than exist with none at all.

The great progress that America has made in the realms of mind and spirit has been shadowed by our economic success and goes relatively unrecognized abroad. Some media of communication, particularly the movies, have been misused by commercial interests and bear a burden of guilt. Librarians, as the custodians and purveyors of most media of communication, are in a position to lead in spreading the message of democracy and the Judaeo-Christian heritage both at home and abroad. But no one is going to plan this for us or speak for us.

Needless to say, any steps in organizing and presenting the message of democracy, the American heritage in its deepest and best spiritual sense, will be a major project for the whole profession. Certainly I have no special insight on how the problem can best be met, but believe we must give our best thought to the subject, confident that the common effort will produce sound plans and great results.

Other

In event of an extension of the present theatre of war, stockpiling of library materials should be studied. Such action may be delayed for the present.

The Association of Research Libraries is considering the problem of the protection of libraries. It is assumed that all A.C.R.L. members will want their association to cooperate with other associations in any way possible.

The staff of the A.L.A. Washington Office has been increased for the specific purpose of handling national emergency problems.

We therefore have hands to work.

Many existing A.L.A. and A.C.R.L. committees have assigned duties bearing on problems raised here. It is assumed that no duplication of assignment and work is desired, and that special action will be taken only as existing committees cannot handle problems.—*Arthur T. Hamlin, Executive Secretary.*

Brief of the Minutes, A.C.R.L. Business Meeting

Meeting, Jan. 31, 1951, at Chicago

The meeting opened with a short report from Mr. Hamlin. Membership on Dec. 31, 1950, was 4623, a decline of just 26 since the previous year. The need for more institutional memberships was presented.

Subscriptions to *College and Research Libraries* had gone up rapidly. The present figure of 2136 represents an increase of nearly 40 per cent in two years. The Board of Directors had just approved the free distribution of this journal to all members paying \$5.00 or more A.L.A. dues. This is not to begin until early or middle 1952, and is subject to certain additional checking of paper supplies and advertising estimates.

Mr. Hamlin urged the sections to take on more projects for study. He felt each of the sections should be conducting a half-dozen inquiries at a time.

Research and investigation would be stimulated by the new Research Planning Committee of A.C.R.L., which had held its first meeting. Closer ties with state and regional library associations would result in more cooperative undertakings.

Planning for college and reference libraries in the national emergency was presented as a difficult subject on which all librarians should be working. A.L.A. has recently sent an additional staff member to the Washington Office to work on problems connected with national defense.

Mr. Hamlin stressed the need for the association to branch out into as yet uncultivated fields, and urged all members to

present problems and to suggest plans for action.

Lawrence Thompson brought up the curtailment of the publication of many essential federal documents. He cited several important series discontinued by an economy-minded Congress. He presented the following resolution which was passed unanimously:

Resolved, That the Association of College and Reference Libraries deplores the tendency to discontinue the publication of significant reference and research tools issued by the United States Government, that it is the sense of this association that it is an essential duty of a democratic government to make readily available to its citizens all information pertaining to the operation of its various agencies (excepting that which must be kept secret for national security), and that the representative of the American Library Association in Washington be requested to be alert to combat such trends in every possible way.

Edmon Low, chairman of the Nominating Committee, presented the following partial report: for Vice President and President-Elect, Robert W. Severance and David H. Clift; for Director at Large, Julian Fowler and Stanley West.

The question was raised as to how institutional memberships in A.C.R.L. might be increased. Mr. Hamlin stated that the college libraries of the country had been circularized. Mr. A. F. Kuhlman emphasized the need to indicate divisional allotment when joining A.L.A.—*Arthur T. Hamlin, Executive Secretary.*

Brief of the Minutes of the Meetings of the A.C.R.L. Board of Directors

Meeting, Jan. 31, 1951, at Chicago

Attendance included committee chairmen and A.C.R.L. representatives on the A.L.A. Council as well as officers and directors.

The meeting was called to order by President Charles M. Adams. A quarterly treasurer's report dated December 1 was distributed. Treasurer Thomas S. Shaw stated that most membership dues come during the winter and spring, and that there was no clear indication of increase or decrease in income under the experimental financial arrangement with A.L.A.

The report of the Committee on Free Distribution of *College and Research Libraries* to Members was presented by Chairman Stanley E. Gwynn. The committee had examined figures previously prepared by the executive secretary and carried the study considerably further. In spite of economic conditions and the uncertainties of advertising, publication costs and membership estimates, the committee felt the venture looked sufficiently sound to proceed. Success would depend on the active solicitation of advertising and new memberships.

Before acting on Mr. Gwynn's report the board heard from Mary D. Herrick for the Committee on Financing *College and Research Libraries*. She stated that 160 letters had been sent to potential advertisers, but results had been discouraging so far. Discussion centered on low *College and Research Libraries* advertising rates and the small volume in comparison with other library publications. A rate increase of 70 per cent was planned by Mr. Gwynn's committee. Editor Tauber cautioned about giving too many pages over to advertising in view of the increased pressure to include more material. Any large increase in advertising volume should be balanced by a corresponding increase in size. Mr. Adams reported 2136 subscribers to *College and Research Libraries*. Of these only some 1400 are included in the present membership (4623).

On motion of Mr. Gwynn it was voted

that free distribution of *College and Research Libraries* be inaugurated with the January, April or July 1952 issue to A.C.R.L. members who pay A.L.A. dues of \$5.00 or more provided: a favorable opinion of the estimates of increased advertising revenue be secured from an authority in the field. A second qualification, that the paper supply be further investigated, has since been met, as the printer believes he will have sufficient stock, in spite of rationing, should the A.L.A. supply be inadequate. It was pointed out that about ten per cent of the members pay the minimum \$3.00, of which only 60¢ comes to A.C.R.L.

Reporting on the work of the Committee on Membership, Chairman Burke said that all state chairmen had been secured except for New Mexico. Personal contacts were to be emphasized in the work of the committee. On a query, Mr. Hamlin explained that membership blanks were sent in bulk to members of the committee only upon request, as otherwise he did not know the number needed.

The report of William A. Kozumplik, chairman of the Committee on Interlibrary Loans, was presented by William H. Carlson. Considerable progress had been made on the study of the cost of interlibrary loan transactions, in collaboration with James Hodgson. The information collected is to be analyzed with I.B.M. machinery. A multiple copy form has been devised which, if generally adopted, should result in great savings in clerical labor. A revision of the interlibrary loan code is in process and will probably provide for the use of the multiple form. The expense of the I.B.M. tabulations was discussed and \$300 voted for committee purposes.

Eugene H. Wilson, chairman of the Committee on Policy, reported their findings relative to a long term policy for A.C.R.L. in the area of federal relations. Cooperation with appropriate A.L.A. boards and committees was highly desirable, and no interests of major significance in this area belonged

exclusively to A.C.R.L. The responsibilities of various A.L.A. committees were reviewed. The committee felt that every A.C.R.L. member, and particularly the executive secretary, should see to it that A.C.R.L. interests be represented by these committees. The committee felt that an article in *College and Research Libraries* was desirable to present special points of interest to A.C.R.L. in federal relations.

After acceptance of the report Mr. Hamlin commented that the request for guidance in the federal relations field had come from the A.L.A. Washington Office and the A.L.A. Federal Relations Committee. Mr. Wilson felt that the executive secretary was responsible for giving such guidance.

The first meeting of the A.C.R.L. Research Planning Committee was reported by Chairman E. W. McDiarmid. It recognized a responsibility to make periodic and continuing analyses of the state of knowledge and research in various aspects; a trial run is to be made by Forrest Carhart, who will analyze these factors in the field of circulation procedures. The start thus made should lead to further research in the subject. The committee also hopes to act as liaison, stimulator and, possibly, coordinator of studies. It agreed to promote the study of costs of various methods of reproducing catalog cards (assigned to Ralph Shaw for action). The committee unanimously agreed on the need for an over-all survey of the state of research knowledge and therefore is planning for a conference of several days devoted to this. (Discussion and approval of this project were held for the meeting February 2.)

Ralph Parker reported for the Committee on Budgets, Compensation, and Schemes of Service. The fourth volume of the Classification and Pay Plans (covering professional schools) would probably be given up because there was too much diversity for one volume. The committee hopes to investigate the usefulness of the Classification and Pay Plans both to libraries and librarians.

The report of the A.L.A. Committee on Membership Dues and Perquisites was discussed. Mr. Hamlin reported general objection to the principle of earmarking funds at A.L.A. Headquarters. After discussion it was voted that the A.C.R.L. representatives on the A.L.A. Council be informed that the

board feels that the Report of the A.L.A. Committee on Membership Dues and Perquisites should be opposed as presented and that there should be particular opposition to the principle of earmarking funds; but that there should not necessarily be taken a positive stand on an alternative proposal, but rather that the matter might be referred back to an appropriate A.L.A. committee. Mr. Hamlin was requested to present this to Council as a formal action.

Meeting, Feb. 2, 1951, at Chicago

After calling the meeting to order President Adams called for the presentation of a proposal from the American Association of Museums. Mr. Hamlin outlined their request for support in seeking from the federal government funds for the construction of ten regional bombproof shelters to house "cultural treasures." Milton Lord then described the efforts of the museum people to get funds through the Civil Defense Administration, and their hopes to gain support from the National Security Resources Board. Should libraries approve and support the project, the shelters could provide for the protection of rare books as well as museum objects. It was hoped to get federal administrative action to allot civil defense funds for the project.

The protection of cultural treasures was stated to be a problem entirely separate from the protection of research apparatus which must be in constant use.

It was voted that A.C.R.L. support the inquiries of the American Association of Museums regarding the possibility of securing funds from the Civil Defense Administration for the erection of shelters to protect cultural treasures in the event of bomb attacks, and that A.C.R.L. support the Association of Museums in drawing the attention of the administration to the urgency of the problem and in presenting the problem.

Mr. Hamlin was instructed to take up with the museum interests the need for space for rare books in any regional depositories and to work out any necessary details.

Mr. McDiarmid's proposal for a conference to survey the state of research and analyze research needs (see January 31 "Minutes," page 175) was presented by Mr. Adams. Need for over-all review was

stressed. A two-or-three-day conference would be required to accomplish this review of the present state of research in college and reference library problems and needs for the future. Extensive, advance documentation should be prepared by someone who could devote his full attention to the matter for several months. Discussion would center around these working papers and conclusions would be made available. The cost was estimated to be \$10,000.

Some doubt was expressed on the need for surveying research in more than a few negative sentences. It was pointed out that the conference might be useful for the development of larger projects to be financed by foundations. The usefulness of the project to Lowell Martin's task of studying projects for foundation support was discussed. Mr. Martin urged that no hasty decision be reached on what would, or would not, attract a particular foundation. The important point was whether or not a given project might forward the stated aims of a foundation.

Mr. Ellsworth spoke briefly on the methods used by Communism to win political battles. If the United States should proceed along similar paths, the burden of supplying enormous amounts of vital information would fall on American libraries. Area studies would be most useful, and A.C.R.L. should be concerned with these.

Confidence was then voted in the project of the Research Planning Committee.

Mr. Martin stated that the basic educational function of libraries was obviously of interest to the Ford Foundation. He outlined his assignment to draw together the more important projects of interest to librarianship and work these together in a form suitable for action. No projects should be held back because of his study. He emphasized the interest of the Ford Foundation in the study and understanding of human conduct. In this field there might be need for mobilizing resources for research, surveying the adequacy of library resources, studying acquisitions, bibliographic control, etc.

Mr. Martin was queried on how A.C.R.L. might help him further with his work. He felt that the discussion had been helpful. No committee or formal liaison was required as he planned to work very informally.

A report by Wyllis Wright was then presented on progress of the "federation" discussions by the Council of National Library Associations. Mr. Wright concluded that the possibility of the A.L.A. being so reorganized that it could serve as the federation of library associations should be discussed within A.L.A. itself. The board unanimously approved his recommendation that the Board of Directors of the Association of College and Reference Libraries request the Executive Board of the American Library Association to consider what changes in the present organization of the A.L.A. would be necessary to enable the A.L.A. to become the central federation of a group of truly autonomous library associations in which the specialized library associations not now affiliated with the A.L.A. would find it possible to participate.

The question was then raised of cooperating with A.R.L. in advising Princeton library officials in their annual compilation of selected library statistics. Several members spoke to the usefulness of the Princeton statistics. Mr. Lundy criticized the selection of libraries for inclusion and the arrangement of libraries in order of size. Mr. Lyle stated that it was too late to offer to cooperate with Princeton as the statistics have been revised and the job is done. He then stated that the A.C.R.L. statistics should be published by November in order to be really useful. Earlier publication obviously means more libraries left out. The figures were felt to have only an historical interest when publication was delayed too long. It was finally voted that the chairman of the Statistics Committee investigate the possibility of collecting the statistics for publication in *College and Research Libraries* at an earlier date so that they might be published in an earlier issue than the April number.

Mr. Hamlin presented the request of Dr. Purdy that he be informed of reactions to the new statistics form used for the first time that fall.

The board voted to continue 85 gift subscriptions of *College and Research Libraries* which are sent to foreign libraries.

The board then discussed college and reference libraries in a military economy. Mr. Hamlin outlined the work which he had done on the subject and presented a series of pro-

posals. Verner Clapp then mentioned the expectation that the Library of Congress would study university library experiences during the past war in Germany (an overrun country), England (a bombed country) and possibly others. He noted the usefulness of the S.L.A. directory of library resources issued during the 1940's, and the need for a guide to research materials in area study programs. Possibly the same material used in the S.L.A. volumes could be revised and brought up to date, but presented in an area arrangement. He emphasized the tremendous difficulties of planning for the protection and usefulness of libraries in a state of war, and the importance of pursuing investigations.

A.R.L. will appoint a committee to work with the Library of Congress on defense problems. Mr. Clapp outlined the Civil Defense Act and provisions for government to share in the expense of necessary temporary construction. The government could provide funds for research. He thought possibly the association should investigate places for research and present recommendations to the Civil Defense Administration. Mr. Clapp urged that the subject of libraries in a war economy be kept to the forefront and under discussion. Mr. Hamlin was requested to keep the board informed further by mimeographed letter.—*Arthur T. Hamlin, Executive Secretary.*

Fulbright Grants

Fulbright grants to be awarded during the academic year 1952-53 have been announced for East Asia and the Pacific countries; the grants are of both the visiting lecturer and research scholar type. There are specific opportunities for librarians in Australia, Thailand and the Philippines and various undesignated possibilities for the other countries. Although the closing date for submitting applications has been announced as Apr. 15, 1951, candidates are urged to apply as soon after this deadline as possible. Apply to the Conference Board of Associated Research Councils, Committee on International Exchange of Persons, 2101 Constitution Ave., Washington 25, D. C.

College and University Library Statistics

AGAIN, the librarians who have been responsible for compiling the 1949-50 statistics have also prepared statements concerning them. Donald E. Thompson, director of

that libraries have prospered. Medians (though not a completely accurate index) are used to show some trends which appear in the following tables:

College & University Library Expenditures (Group I)

Year	Staff Salaries (Median)	Books, Periodicals & Binding (Median)	Total Library Expenditures (Median)
1945-46	\$ 72,379	\$52,156	\$153,489
1946-47	83,313	65,765	186,543
1947-48	95,167	67,726	216,508
1948-49	117,418	82,883	242,776
1949-50	122,033	72,218	236,603

College & University Library Salaries (Group I)

Year	Department Heads		Professional Assistants		Nonprofessional Assistants	
	Minimum (Median)	Maximum (Median)	Minimum (Median)	Maximum (Median)	Minimum (Median)	Maximum (Median)
1945-46	\$2400	\$2920	\$1680	\$2500	\$1200	\$1920
1946-47	2900	3500	2100	2885	1320	2189
1947-48	2520	3825	2400	3200	1470	2460
1948-49	2689	4000	2454	3300	1500	2400
1949-50	3380	4000	2600	3320	1560	2520

libraries, Mississippi State College, has gathered the statistics for the libraries in Group I. Theodore Manheim, Wayne University Library, has prepared the statistics for Groups II and III. The library statistics for Teachers Colleges were collected by Wendell W. Smiley, librarian, East Carolina Teachers College.

One hundred statistical forms for 1949-50 were received for Group I. Eliminations were necessary for the following reasons:

1. The page size of *College and Research Libraries* will accommodate the names of about 70 libraries.

2. The A.C.R.L. Statistics Committee decided that libraries supplying only partial data requested should be excluded.

3. Some statistical forms were received too late to be included.

An analysis of key figures for the five-year period from 1945-46 through 1949-50 shows

In the expenditures section, the median for staff salaries has increased each year while the medians for books, periodicals, and binding and total library expenditures have increased for four years and then decreased in 1949-50. The table of salaries shows almost steady increases in each category, ranging from 30 to 55 per cent over the five-year period. All salaries have shown a steady increase each year except the minimum for department heads and the maximum for non-professional assistants. Median salaries for head librarians have increased for four years and then decreased, the figures being \$5850, \$6425, \$6500, \$7000, and \$6410, respectively, for the five-year period. Salary medians for assistant librarians are \$3845, \$4500, \$4410, \$4500, and \$4800 for the years represented.

The various decreases may be due to a drop in enrolment from the peak of 1948 and 1949, with the resultant decrease in institu-

tional income, or may be caused by the deletion of some large libraries and the addition of smaller libraries in the 1949-50 statistics.

The statistics for libraries of "small" colleges and universities are presented in two groups this year, those for institutions with enrolments from 1000 to 2500 (Group II) and those for institutions with fewer than 1000

included in computing medians but no individual "confidential" figure has been included in the tables.

A summary of median per capita expenditures for service and materials, of median per capita total library expenditures and of the ratio (expressed as a percentage) of library expenditures to total institutional expenditures during 1948-49 and 1949-50 follows:

	Group II 1949-50	Group III 1949-50	Group II 1948-49
Per capita Salaries and wages	\$16.38	\$16.30	\$12.88
Per capita Materials	8.28	9.15	7.25
Total per capita	26.08	27.87	
Ratio	4.2	4.4	3.9

students (Group III). Thus the groups are somewhat more homogeneous than they would have been had the earlier grouping been used.

Fifty-one forms were returned by Group II institutions. Seventy-seven Group III institutions reported, but only 59 are included in the compilation. Some reports were received too late for inclusion and others were omitted because of incomplete reporting.

Few institutions reported "equated" enrolment—in most cases because all or nearly all students were enrolled full time. In the few institutions reporting equated enrolment, the figure did not differ significantly from total enrolment. Hence total enrolment data were tabulated and used as the base for per capita data.

"Confidential" data continue to limit seriously the value of the published tables. Your compiler finds it hard to understand what is gained by insisting that facts be kept confidential or what would be lost by permitting their publication. In the Group II and Group III tables, confidential data have been in-

The number of teachers colleges included in the tabulations shows a gratifying increase over previous years. The distribution in the upper bracket for teachers colleges is skewed when compared with the 1948-49 statistics because the largest library, from almost every point of view, reported in the 1948-49 tables is not included in the 1949-50 tables. Therefore, the maximum figures for 1949-50 should not be compared with those for former years without checking for such possibilities. Indications are that median and low figures are not affected by the slight variations which are caused by institutions reporting one year and failing to report another year. The validity of maximum figures would not be affected by the failure of a library to report if that library should fall anywhere near the median, but when an institution stands out as an unusually large institution in its class, and statistics for that institution are not received regularly, then the maximum figures become skewed. The same could happen in the case of one very small library as well.

Personnel

Edwin T. Coman, Jr.

EDWIN T. COMAN, JR., director of the Graduate School of Business Library and assistant professor of Business History at Stanford University was appointed librarian of the University of California at Riverside; effective Jan. 1, 1951.

Mr. Coman, a graduate of Yale University and the School of Library Service at the University of California, developed the Graduate School of Business Library at Stanford University from the small collection existing when he came to Stanford in 1936 to its present outstanding position among such libraries in the United States.

His work in the field of business history has been equally outstanding. He is the author of *Sources of Business Information* (New York, Prentice-Hall, 1949) and *Time, Tide and Timber. A Century of Pope & Talbot* (Stanford, Stanford University Press, 1949).

After holding many committee chairmanships and other offices in the California Library Association, Mr. Coman became president in 1949. He has been active in the Special Library Association and other library and business groups.

At the University of California at Riverside he will have an unusual opportunity

to develop adequate library facilities for the newest campus of the state university.—*Nathan van Patten.*

KANARDY L. TAYLOR on Oct. 1, 1950, was appointed assistant director of the Army Medical Library, Washington, D.C. Mr. Taylor is a native of Eureka, Ill., having been educated there (Eureka College) before entering the University of Illinois Library School, class of 1933. He served 15 years at the John Crerar Library, Chicago, progressively as cataloger, chief cataloger, reference librarian and assistant librarian, each step in his progress being marked by a growing capacity for administrative function. His ability to balance our best library traditions of requisite interest, knowledge and service with new developments justified by time and change has stood the Crerar and its patrons in good stead. A farewell reception at Crerar in September convinced everybody concerned that Crerar is happy to witness Mr. Taylor's entry into a larger administrative field, and that an evolutionary career in one library, on the background of wide views and patient adaptability, is a good preparation for higher duties anywhere.—*J. Christian Bay.*

Kanardy L. Taylor

Appointments

Charles M. Baker, formerly librarian of the Westminster College Library, Salt Lake City, is now circulation librarian at the Idaho State College Library.

Dale Barker is in charge of acquisitions at Georgia Institute of Technology.

Marjorie Barr, formerly documents librarian at Washington University, St. Louis, Mo., is now serials librarian at the University of Wichita.

Joan Marie Bontemps has been appointed associate librarian of Maryland State College, Princess Anne, Md.

Mrs. Agnes Barnes Browder has been appointed assistant professor of library science at the Georgia State College for Women.

Jane M. Burdick is assistant librarian in charge of circulation and reference work at the Fairmont (W.Va.) State College.

Mrs. Dorothy van Arsdell Crowe has been appointed biological sciences librarian at the University of Kentucky.

Russell S. Dozer, formerly of the Legislative Reference Division of the U. S. Library of Congress, has been appointed circulation librarian of the Ohio State University Libraries.

Mary R. Dundon, formerly librarian of the St. Louis University High School, has been appointed librarian of the fine arts library of Washington University.

Leslie Dunlap has been appointed to the faculty of the University of Illinois Library School.

Kenneth H. Fagerhaugh, since 1948 research librarian and director of the research information service at the John Crerar Library, Chicago, Ill., has been appointed assistant librarian at the Crerar.

Marie A. Gast has been appointed reference librarian at Wells College, Aurora, N.Y.

Arthur E. Gropp, formerly librarian of the Biblioteca Artigas-Washington in Montevideo and of the Middle American Research Institute of Tulane University, has been appointed librarian of the Columbus Memorial Library of the Pan American Union.

Clara C. Gross has been appointed serials and exchanges librarian at the University of Nebraska.

W. Roy Holleman, formerly librarian of

Balboa University, San Diego, Calif., is now librarian of the Scripps Institution of Oceanography, La Jolla, Calif.

Elizabeth N. Ives, formerly assistant librarian of Elmira College, has been appointed head of the Catalog Department of Trinity College, Hartford, Conn.

Robert Q. Kelly is librarian of the De Paul University Law Library.

Warren B. Kuhn, formerly of the reference department of the New York Public Library, has been appointed circulation librarian of the University of New Mexico Library.

Dan M. Lacy, since 1947 assistant archivist of the United States, has been appointed deputy chief assistant librarian of the U. S. Library of Congress.

Mrs. Grayce H. McLamb, formerly librarian of Campbell College, has been appointed librarian of Washington College, Wilmington, N.C.

Pearl Motley, formerly librarian of the Ferrum (Va.) Junior College is now librarian of Andrew College at Cuthbert, Ga.

John A. Rindone, formerly assistant librarian at Florida Southern College, is now circulation librarian of the University of Wichita.

Helen R. Sattley, for the past several years on the staff of the Columbia University School of Library Service, has joined the faculty of the Western Reserve University Library School.

Rolland E. Stevens is in charge of acquisitions at the Ohio State University Libraries.

Rollo G. Silver has been appointed assistant professor of library science, Simmons College.

Dr. Jerrold Orne, director of libraries, Washington University, St. Louis, has been granted a three-month leave for the summer of 1951 to work at a Spanish language text for reference work in Cuba. He will be in residence at the Sociedad Economica de Amigos del Pais in Havana. Coeditor of the text will be Mrs. Josefina Mayol.

Thelma Reid has been appointed part-time lecturer for the spring semester in the School of Librarianship, University of California, Berkeley.

Ruth M. Baldwin has been appointed to

the faculty of the Library School of the University of Southern California.

Mrs. Ella T. S. Anderson has been appointed assistant professor of library science, Drexel Institute of Technology.

Dr. Orville L. Eaton, director of libraries at the University of Kansas City for four years, became college librarian and head of the Department of Library Science at Kansas State Teachers College, Emporia, Sept. 1, 1950. Dr. Eaton succeeds Carroll P. Baber who retired from administrative duties on the same date but will remain on the staff in charge of acquisitions.

Other staff changes at the Emporia institution effective Sept. 1, 1950, were as follows: Gertude Lemon, who had held the position of extension librarian, became circulation librarian upon the retirement of Maud Shore. Harriet Elcock who had served as order librarian, took charge of the extension service.

Bryant Harvey Jackson is librarian at Kansas Wesleyan University, Salina. Mr.

Jackson succeeds Mrs. Earl Wyatt who retired after several years of service.

Two members were appointed to the library staff of the Kansas State Teachers College, Pittsburg, effective Sept. 1, 1950: D. Genevieve Dixon as library science instructor, and Betty Bennett, formerly documents librarian at the University of Iowa, as reference librarian.

The following staff changes have taken place at the University of Wichita: Florence Hildebrandt, circulation librarian, became assistant librarian in charge of public services. John A. Rindone, formerly at Florida Southern College, is in charge of circulation. Margery Barr, until recently in charge of documents at Washington University, is now serials librarian.

Geraldine Morris has been appointed head of the Catalog Department, Fort Hays State College.

Lucy Mary Manzi has been appointed cataloger on the staff of Radcliffe College.

Necrology

Neil Cleveland Van Deusen, who lost his life in an automobile accident on Nov. 8, 1950, was born Sept. 26, 1906, in Coldwater, Mich. He is survived by his parents, T. M. and Harriet Van Deusen of Flint, Mich., his widow, Millicent Disco Van Deusen, to whom he was married in 1944, and a daughter, Harriet, born Apr. 8, 1946.

Neil Van Deusen grew up in Michigan, spending the first years of his life in Coldwater, later moving to Flint. He attended the public schools of Flint and was graduated from the Flint Junior College in 1925. He continued his education at Columbia University where he was granted an A.B. degree in 1928, a Master's degree the following year, and a Ph.D. degree in philosophy in 1932. He taught philosophy at Columbia for several years before his interests turned to librarianship. After completing the course in library science at Columbia University, he was appointed university librarian at Fisk University where he served from 1938 until 1941.

He left this post in 1941 to become di-

rector of library education at the State Teachers College in Geneseo, N.Y. Here he built up the library training program to a point where it supplied many of the best school librarians in upper New York State. The program received recognition nationally when it was accredited by the Board of Education of the American Library Association.

He left Geneseo in 1948 to become director of the library extension division of the New York State Library at Albany, N.Y. He was not a stranger to the needs of this division, having carried out a public library research study for the State Education Department in 1945-46. This investigation had kindled his interest in the opportunities in public library service and demonstrated his ability to guide and revitalize the public library program in the state. As director, he met problems with courage and insight, displaying unusual skill in resolving administrative difficulties, in getting people to work effectively and harmoniously together, and in imaginative planning. Eminently unselfish

Randolph Greenfield Adams

and modest, he sought no honor for himself, but accepted responsibility where he felt he was needed and could make a contribution, and shared generously with his associates the recognition which followed. One of the tangible accomplishments of his first year in Albany was the development of a regional library center in Watertown, N.Y., to serve as a model for other similar centers. He gave distinguished service on the Governor's Library Aid Committee in 1949-50, by providing that committee with the facts and much of the guiding philosophy which went into its report. This report became the basis for legislative action which set up a long range program of state aid to county libraries.

He had begun his work as a professor of library science with enthusiasm and with conspicuous success. He was proceeding with a careful revision of course content, was building up a library related to his subject fields and had plans to complete a book on book selection. He had looked forward to the establishment of contacts with librarians in the state, with a view to possible assistance he might give them in the solution of their problems and the enrichment such contacts would give to his teaching. He had plans to develop the research of his own students and was directing a small group in studies of special problems. His death cut short these hopes and expectations and deprived

the university of one whose scholarship, experience, cultural interests and unusual personal qualities combined to make him an ideal choice for the position to which he had been appointed.—*Rudolph H. Gjelsness, Algo Henderson and Raymond Kilgour.*

Randolph Greenfield Adams, director of the William L. Clements Library of the University of Michigan, who died suddenly on January 4, was a colorful scholar and a stimulant to the library profession. He was 58 years old.

His academic studies were interrupted by World War I, but he returned to the University of Pennsylvania and obtained his doctor's degree in history in 1920. Starting a teaching career at Trinity College (now Duke University), he was interviewed in 1923 by the late William L. Clements, book collector and regent of the University of Michigan, and was appointed first director of the library Mr. Clements had given to his alma mater. Dr. Adams served the library continuously except for a semester's leave in 1929 to act as visiting Carnegie professor at St. Andrew's University, Scotland.

As a librarian he was devoted to the discovery and conservation of source materials, building on Mr. Clements' basic collection of Americana. He wrote and spoke on library administration from the point of view of the rare bookman, always urging librarians to cultivate a wider background, take a deeper interest in the materials that passed through their hands, and appreciate the efforts of the private collector. He was interested in new techniques, like microfilm, and in new library architecture.

Besides writing guides to various exhibitions in the library, he was the author of *Political Ideas of the American Revolution* (1922), *A History of American Foreign Policy* (1924), two historical works for children, and other books. In 1939 he was appointed a Rosenbach Fellow in Bibliography and his three lectures at the University of Pennsylvania were published under the title, *Three Americanists*.

Dr. Adams was a member of the American Historical Association, the American Library Institute, the Grolier Club, and the Bibliographical Society of America, of which he

was president in 1940-41. He was also elected to membership in the American Antiquarian Society, the Massachusetts Historical Society, and the New York Historical Society. Since its inception, he had been a judge of the History Book Club. He also directed the McGregor Plan, while it operated, to encourage college libraries to collect rare books.—*Howard Peckham*.

Nedra LeBlond, reference assistant in the Oregon State College Library in Corvallis, died at the home of her parents in Stanwood, Wash., on Dec. 22, 1950. Miss LeBlond was a graduate of the Library School of the University of Washington and had also taken work in the School of Library Service at Columbia University. She served as periodicals librarian at the University of Idaho from September 1930 to June 1943, leaving that position to join the reference staff of Oregon State College.

Miss LeBlond was an exceptionally competent reference librarian. Her quiet, friendly personality had made many friends for her in library circles and at Oregon State College. She was a member of the American Library

Association, the Oregon Library Association and the Pacific Northwest Library Association. She was elected secretary of the Reference Section of P.N.L.A. in the summer of 1950, but resigned this position in October due to her illness. She was also a member of the Association of University Women and the Corvallis Business and Professional Women's Club.

Miss LeBlond was an amateur photographer of outstanding ability, specializing in landscapes and seascapes. The Oregon coast was one of her favorite subjects, and she had made a number of exceptionally fine pictures of it.—*W. H. Carlson*.

Arthur S. Beardsley, law librarian of the University of Washington from 1922 to 1944, died on Oct. 5, 1950 at the age of 61.

Robert Benaway Brown, curator of printed books at the William L. Clements Library, died on Dec. 8, 1950.

Franklin F. Hopper, former director of the New York Public Library, died in San Francisco on Nov. 29, 1950.

Personnel Changes in Foreign Libraries

On Aug. 1, 1949, Dr. Bruno Claussen retired as director of the University of Rostock Library. Dr. Heinz Herz of the university's faculty of social sciences was made acting director.

Dr. Georg Minde-Pouet, former director of the Deutsche Bücherei in Leipzig died on Jan. 20, 1950, in Berlin.

Dr. Wolf von Both, acting director of the Landesbibliothek in Kassel, was appointed director on Nov. 1, 1949.

Dr. Hermann Reuter retired on Feb. 1, 1950 as director of the Landes und Stadtbibliothek in Düsseldorf. His successor is Dr. Joseph Giessler.

Khan Bahadur K. M. Asadullah, founder of the Indian Library Association and formerly director of the Imperial Library in Bombay, died on Nov. 22, 1949.

T. D. Kendrick, keeper of the Department of British Antiquities of the British Museum, has been appointed director and principal librarian of the museum in succession to Sir

John Forsdyke, who is retiring after holding the directorship for 14 years. Sir John retired on April 30, 1950. Mr. Kendrick has been on the staff of the museum since 1922 and has been head of the Department of British Antiquities since 1938.

Wilfred Alexander Marsden, formerly keeper of printed books in the British Museum, died in London on Dec. 13, 1949.

Dr. Sigfús Blöndal, until 1939 a member of the staff of the Royal Library in Copenhagen, died in 1950 at the age of 76.

Dr. Edward Kuntze, director of the Jagiellonian Library in Krakow, Poland, and editor of the Polish library journal *Przegląd Biblioteczny* since its beginning in 1927, died on June 3, 1950.

William Williams, F.L.A., formerly Keeper of Printed Books, National Library of Wales, retired on Aug. 1, 1950 after 50 years of library service and 31 years on the staff of the National Library of Wales. He died on Oct. 9, 1950.

News from the Field

Acquisitions, Gifts, Collections

In December the Library of Congress accepted a generous gift for the development of a poetry center. The fund, the gift of Mrs. Gertrude Clarke Whittall, is to be spent by the Librarian of Congress for the purpose of developing the appreciation of poetry in this country. Among earlier gifts from Mrs. Whittall are the Edward Arlington Robinson manuscripts (1938 and 1949); corrected proofs of Tennyson's *Charge of the Light Brigade* (1939); Dante Gabriel Rossetti manuscripts and letters (1939); A. E. Housman manuscripts (1940); and notebook of Percy Bysshe Shelley (1941).

Plans are now well underway for a series of lectures on poetry, public poetry readings and other related activities. A Poetry Corner has been installed in the southwest corner, third floor, of the Main Library Building, for the use of scholars and for occasional lectures and readings of poetry.

The Alfred Whital Stern Collection of Lincolniana, the most extensive collection of Lincoln literature ever assembled by a private individual, has been presented to the Library of Congress. The collection contains some 6000 volumes together with paintings, photographs, medals, manuscripts and memorabilia. Mr. Stern proposes to accompany his gift with an endowment sufficient to provide for its perpetual enlargement, and to permit, from time to time, the publication of catalogs, bibliographies and studies designed to increase the collection's usefulness.

It was announced in November that the famous Spinoza collection of the late Professor Abraham Wolf, head of the Department of History and Philosophy of Science at the University of London, had been acquired by the University of California at Los Angeles Library. Funds for this purchase were supplied by the Regents of the University and with the help of a generous gift from Frank M. Vanderhoof, a U.C.L.A. alumnus of the class of 1941. There are 1300 titles in this collection and acting librarian, Robert Vosper, has pointed out that a partial reconstruction of Spinoza's personal library, patiently assembled by Dr. Wolf, is an unusual feature

of the collection. Also included are all modern scholarly works on Spinoza.

The University of California at Berkeley has purchased approximately 100,000 Japanese, Chinese and Korean books from the Mitsui Library of Tokyo.

Louisiana State University has received a \$75,000 library grant from the General Education Board. The money will be used primarily to fill gaps in the field of scientific materials. The grant, made available in January, will be matched by \$75,000 of university funds. Guy R. Lyle, L.S.U. director of libraries, stated that the purchases made possible by the \$150,000 would include scientific journals, proceedings of learned societies and publications of science academies.

George Washington University has received the library of the Carnegie Endowment for International Peace, formerly located in Washington, D.C. The collection of 70,000 volumes is valued at \$250,000.

Last fall Barnard College was the recipient of a collection of literature composed primarily of first editions and emphasizing contributions of American women from early colonial days to the present. The donor, Mrs. Frederick C. Overbury, is an alumna of the class of '96. Mrs. Overbury has provided for a future maintenance fund of \$15,000 to care for the volumes and to make further additions possible. Among the books are the 1758 edition of the poems of Ann Bradstreet, the Robert Hoe copy of Ann Elizabeth Bleecher's posthumous works and volumes representing Susanna Rowson, Sarah W. Morton, Phillis Wheatley and Caroline Matilda Warren.

The Library of the College of Liberal Arts of Boston University is the principal legatee of a trust fund of \$196,000 left to Boston University by James Geddes, Jr., professor of romance languages at the college for 50 years. The income from this fund, which amounts to \$5000 per year, will be used to purchase books.

The November 1950 issue of the *Exhibits South Atlantic Bulletin*, the official organ of the South Atlantic Modern Language Association, described the

special efforts made by the University of Kentucky Library to display library materials of interest in the fields of language and literature. Content as well as physical format have been considered. Current exhibits of fine printing from the Government Printing Office have been displayed. At the time the article was printed two Danish book exhibits were on their way across the Atlantic. One was the Godt Bogarbejde, the Danish equivalent of the A.I.G.A. Fifty Books and the Rounce and Coffin's Western Books. The other represented a display of the bindings of Henrik Pask, youthful successor of Anker Kyster, Danish royal binder.

Last spring the Fondren Library of Southern Methodist University prepared an interesting exhibit entitled "Landmarks in Science." The exhibit consisted of 52 rare and important books in the history of science, a representative selection from the library of E. De Golyer of Dallas, geophysicist and bibliophile. Among the items displayed were: Hakluyt's *Principall navigations*, the 1589 edition; Fuchs' *De historia stripium* of 1542; Galileo's *Sidereus nuncius*, 1610, with inscription by the author; Aristotle *De animalibus*, Venice, 1476; the *Hortus sanitatus* of 1491.

Miscellany The John Crerar Library of Chicago has become the fourteenth member of the Midwest Inter-Library Corporation. Herman H. Henkle, librarian, who participated in the corporation's early planning sessions, has been named to represent the library on the Board of Directors of the corporation. The Crerar membership came in time for Mr. Henkle to be present at the corner stone ceremonies of the Midwest Inter-Library Center which took place on October 30. The Center's building is expected to be finished on April 1, 1951.

A copy of a resolution, passed by the Southeastern Library Association at its Atlanta meeting on Oct. 12, 1950, has been received from Lawrence S. Thompson, director of libraries, University of Kentucky. The resolution reads as follows:

Resolved, That, whereas the publication and distribution of the non-confidential records of all government agencies is essential to the perpetuation of our democratic way

of life and highly desirable as a service to students of the social sciences, as well as other fields of scholarship, the policy of many agencies of the Federal Government in curtailing or discontinuing publication of documents as means for cutting down operating expenses be considered a most undesirable practice, that competent library authorities be consulted before any significant document series is discontinued (accepting the fact that certain types of documents may lose usefulness), and that the representative of the American Library Association in Washington be requested to be alert to note such trends to curtail and discontinue document publication and to combat them in every way.

Earl James McGrath, U.S. Commissioner of Education, has announced that facilities of the nation's colleges and universities, which they can use to serve the needs of the armed services and the federal government for purposes of national defense, are being inventoried by the Office of Education, Federal Security Agency.

Publications The third edition of the Library of Congress classification schedule for works in the social sciences—the first revision published in 30 years—was issued in December. Reflected in the new schedule are the many changes which have occurred in this area of knowledge during the past half-century. World War II, radio and television broadcasting and atomic engineering are some of the new subjects. Among other additions are sections for Pakistan, rural electrification, social case work, community centers, international banking and international commodity control. The price is \$2.75. Orders may be addressed to the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C.

A bibliographical guide to British literary interests during World War II has recently been published by the Library of Congress. Entitled *Works in the Humanities Published in Great Britain, 1939-1946; A Selective List*, the study was undertaken by Louise Bogan, distinguished American poet, during her service as consultant in poetry in English at the Library of Congress, 1945-46. A selected list of 978 titles is presented for the purpose of providing information concerning

British literary production in a period of crisis and transition. Miss Bogan has grouped these entries under 16 different headings. Brief critical notes introduce each category. The guide contains 123 pages, reproduced by multilith, and may be purchased from the Card Division, Library of Congress, Washington 25, D.C., for 85¢ a copy.

The Library of Congress has also published the third report in a series of surveys on the status of intellectual life in Western Germany, entitled *A Statistical Postwar Survey on the Natural Sciences and German Universities*, by Kurt Ueberreiter. This publication is part of the library's Foreign Consultant Program in Germany under the direction of Harry J. Krould, chief of the European Affairs Division, and was made possible by a grant from the Oberlaender Trust, Philadelphia. Copies of the report will be distributed free to libraries and research organizations upon request to the European Affairs Division, Library of Congress, Washington 25, D.C.

Other recent Library of Congress publications are: *Catalog of Talking Books for the Blind*, Supplement No. 1, 1948-50 (Publications Section, free); and *Korea, an Annotated Bibliography of Publications in Western Languages*, compiled by Helen Jones and Robin Winkler (Card Division, Library of Congress, \$1.10); *Fifteenth Century Books in the Library of Congress; A Checklist*, compiled by Frederick R. Goff (Superintendent of Documents, 45¢); *United States Atlases; A List of National, State, County, and Regional Atlases*, compiled by Clara Egli LeGear (Superintendent of Documents, \$2.25); *Government Financial Aid to Foreign Air Carriers*, by John C. Cooper (Public Affairs Bulletin No. 87; order from Card Division, Library of Congress, 50¢); and *Provisions of Federal Law Enacted for War and Emergency Periods*, compiled by Margaret Fennell (Card Division, 35¢).

A new volume of the *Index to Catholic Pamphlets in the English Languages*, compiled by Eugene P. Willging, Director of Catholic University Library, was published late in 1950 by the Catholic University of America Press. It covers the period from December 1948 through September 1950 and gives an annotated description of 466 new titles. Mr. Willging estimates that approxi-

mately 275-300 new titles are issued annually by Catholic pamphlet publishers in America, Great Britain and Ireland. Some of the subjects included in this fifth volume of the Index are philosophy and psychiatry, scripture, church history, dogma, liturgy, Christian art, the sacraments, Christian life, missions, Protestant churches, sociology, political science, history, education, leisure, literature, biography and juvenile pamphlets.

The Columbia University Press has issued *U.N.R.R.A., The History of the United Nations Relief and Rehabilitation Administration*, prepared by a special staff under the direction of George Woodbridge, chief historian of U.N.R.R.A. (3 vols., \$15.00). This is the official history, the authoritative record of U.N.R.R.A.'s purposes, problems and accomplishments. Volumes I and II are divided into eight parts: (1) the international aspects, (2) operating organization, (3) the supply program, (4) aspects of field operations which were common to all countries, (5) an account of the actual work in each country of Europe, (6) an account of each program in the Far East, (7) an analysis of the position of U.N.R.R.A. in respect to the care of displaced persons, and (8) a summary and evaluation of the work of U.N.R.R.A. Volume III contains hitherto unpublished documentary material, including basic international agreements with benefiting countries, basic statistics on financial and supply operations and other matters.

The *Journal of the American Concrete Institute* has issued a 20-year index, covering the period November 1929 to June 1949. (252p., \$2.00, American Concrete Institute, 18263 W. McNichols Rd., Detroit 19, Mich.)

The New York State Library is the distributor of *Official Document Book, New York State Freedom Train* (72p., illus., facsim., 1950). New York state librarians and librarians generally will be interested in this carefully prepared and impressive collection of documents relating to the several freedoms.

The University Library, Copenhagen, Scientific and Medical Department, has published vol. 1, of *Library Research Monographs*, entitled *Otto Friderich Muller's Zoologia Danica*, by Jean Anker. (108p., Ejner Munksgaard, Copenhagen, 1950; price, D.Crs.12/-). This volume, attractively

printed and illustrated, marks the beginning of a projected series of monographs on general and theoretical problems of librarianship, and on the history of books and publishing. Dr. Anker, who is editor of the series, has announced that the monographs, which will be published in English, French or German, will appear at irregular intervals. Manuscripts, as well as inquiries concerning collaboration and exchange, should be addressed to Dr. Jean Anker, chief librarian, 49, Nr. Alle, Copenhagen N. Denmark.

Margaret I. Rufsvold, associate professor and director, Division of Library Science, Indiana University, Bloomington, has issued "Audio-Visual School Library Service: A Workshop, August 1-19, 1949, University of North Carolina, Chapel Hill, North Carolina." This 26-page mimeographed publication contains a number of useful suggestions on the handling and organizing of audio-visual collections.

A Forum on the Public Library (The Conference at the University of Chicago Graduate Library School, Aug. 8-13, 1949), edited by Lester Asheim, has been issued by the Columbia University Press (281p., 1950, \$3.75). As Dr. Asheim points out in the preface, the conference proceedings "form, in effect, a supplementary volume in the Public Library Inquiry series which serves as an evaluative commentary upon them. In it the reports are defined and evaluated, clarified and highlighted, by sensitive critics of the data." The volume contains a summary paper written by Dr. Robert D. Leigh, director of the inquiry, which has been substituted for his summary presented at the conference.

John T. Winterich's *Three Lantern Slides; Books, the Book Trade, and Some Related Phenomena in America: 1876, 1901 and 1926*, is a publication of the University of Illinois Press (109p., 1949, \$2.50).

Paul G. Morrison is the compiler of an "Index of Printers, Publishers and Booksellers in A. W. Pollard and G. R. Redgrave *A Short-Title Catalogue of Books . . . 1475-1640*." This publication is issued by the Bibliographical Society of the University of Virginia, c/o University of Virginia Library, Charlottesville. Price \$3.50.

Robert L. Collison is the author of *The Cataloguing, Arrangement and Filing of Special Material in Special Libraries* (76p., 1950;

A.S.L.I.B., 4 Palace Gate. London, W.8; 9s. 6d.). The small volume deals with the general principles of handling special materials, and includes attention in detail to illustrative materials, lantern slides, news clippings and indexes, microfilms, gramophone records, trade catalogs, maps and films.

Elizabeth Cometti is the editor of *Jefferson's Ideas on a University Library; Letters from the Founder of the University of Virginia to a Boston Bookseller* (The Tracy W. McGregor Library, University of Virginia, Charlottesville, 49p., 1950, \$2.50). The firm of Cummings, Hilliard and Company, Boston, was the bookseller with which Jefferson made arrangements for books for the university.

A new edition of *Publications of the Department of State, July 1, 1950* has recently been issued. It is aimed at the general reader as well as the librarian who wants to know what new publications have been released on foreign policy, Germany, Korea, international organization and other subjects of importance (61p., free, from Division of Publications, Department of State, Washington 25, D.C.).

"So Now You Know," staff publication of the John K. Mullern Library, Catholic University of America, has included in its October 1950 issue, the annual reports of the various departments and departmental libraries.

Jens Nyholm, librarian, Northwestern University, is the author of "Studies in Danish Literature, 1947-1948," in *Scandinavian Studies*, 22:97-113, August 1950.

Publications and Thesis Direction at the University of Alabama, 1949-1950, edited for the Research Committee by Kathrina B. James, has been issued as December 1950 number of the *University of Alabama Bulletin*.

The November 1950 issue of *The Library of Congress Quarterly Journal of Current Acquisitions* is an interesting dedication to the founding of the national library 150 years ago. It contains articles concerned with the various collections of the Library. (Superintendent of Documents, Washington 24, D.C., price 35¢.)

Books for Catholic Colleges, 1948-1949, has been issued by the American Library Association (57p., 1950, \$1.25). This supplement to the original list was prepared under the

auspices of the Catholic Library Association by Sister Melania Grace, S.C., Gilbert C. Peterson, S.J. and Ambrose Burke, T.O.R.

The Forbes Library, Northhampton, Mass., has available a number of copies of the Cutter classification in uncollated signatures. Libraries which use the Expansive Classification (the Cutter System) may be interested in replacing their worn copies of the schedules. The newer library schools will wish to include this important classification in their library science collections. If sufficient interest is shown, the heirs of Mr. Cutter, who own the schedules, will authorize the collation and sale of the Classification at \$5.00 a copy, unbound. This is the seventh expansion and is all published except for a small section of Religion including the Index to Religion. Address orders and correspondence to Lawrence E. Wikander, librarian, Forbes Library, Northampton, Mass.

The New York State School of Industrial and Labor Relations, Cornell University, has issued *Introduction to Public Relations* by Dave Hyatt (Extension Bulletin 5). Distributed free to New York state residents; 25¢ to others.

The Papers of Randolph of Roanoke, a Preliminary Checklist of His Surviving Texts in Manuscript and in Print, by William E. Stokes, Jr. and Frances L. Berkeley, Jr., has been issued as Number 9 of the University of Virginia Bibliographical Series. (170p., \$2.50).

The staff of the Hallie Q. Brown Library, College of Education and Industrial Arts, Eilberforce, Ohio, has compiled an *Index to Selected Negro Periodicals* received by the library. (45p., 1950).

P.D. Record is the author of *A Survey of Thesis Literature in British Libraries* (The Library Association, Chaucer House, Malet Place, London, W.C.I, 21p., 1950, 2s.6d.).

This survey is an extension of Luxmore Newcombe's paper on *The Accession of British University Thesis Literature*, and is based upon a questionnaire circulated to libraries in the early part of 1949.

Skidmore College has published *Modern American Poetry*, a catalog of a loan exhibition in the Lucy Scribner Library, Oct. 17-Nov. 9, 1950.

The Princeton University Press has published for the World Peace Foundation, *Documents on American Foreign Relations* Vol. VI, 1949 (728p., 1950, \$6.00). This volume covers the conduct of American foreign relations during 1949, and includes documentary materials on such developments as the "Point Four Program," the reorganization of the United States machinery for the conduct of foreign relations, the establishment of the West German Government, and the great advance of the Communist power in the Far East, notably in China.

Nigel Morland is the author of *An Outline of Scientific Criminology*, published by the Philosophical Library (284p., 1950). The volume contains detailed information on the methodology of detecting criminals. Of particular interest to librarians is the chapter on "Documentary Evidence and Forgeries," which considers such factors as watermarks, inks, etc.,

Honorary Members The American Library Association, at its Midwinter Meeting in Chicago in January, elected the following to Honorary Membership: Dr. William Warner Bishop, librarian emeritus, University of Michigan; Dr. Robert M. Lester, secretary of the Carnegie Corporation for the past 25 years; Dr. Louis R. Wilson, formerly librarian at the University of North Carolina and dean emeritus of the Graduate Library School of the University of Chicago.
