With the announcement of its plans to begin immediate publication of a 152-volume, one-alphabet cumulation of the four important supplements to *A Catalog of Books Represented by Library of Congress Printed Cards*, Gale has launched one of the major publishing events of 1969.

Gale's *LC-NUC Author Lists, 1942-62*, includes the entries in the following four supplements—

*Catalog of Books Represented by Library of Congress Printed Cards—Supplement [1942-1947]*

*The Library of Congress Author Catalog, 1948-1952*

*The National Union Catalog: A Cumulative Author List, 1953-1957*

*The National Union Catalog: A Cumulative Author List, 1958-1962*

Thus, the master cumulation is a one-stop source for quick, easy reference to bibliographical and cataloging data covering books, maps, atlases, periodicals, and other serials cataloged by the Library of Congress during the twenty-one years, 1942-1962, and by other North American libraries, 1956-62.

The format and type size of the entries now in the supplements will be retained in the cumulation, assuring the smooth continuation of any Polaroid or other photographic cataloging system now in use. High-quality printing and binding, plus the use of permanent/durable paper, will insure that the set withstands years of constant use.

Of course, a much larger and more inclusive cumulation, titled *National Union Catalog Pre-1956 Imprints* (and often called just "Mansell," after the publisher) is in early stages of publication, with completion expected in 1979, and libraries unable to afford both cumulations should give serious consideration to Mansell. Subscribers to the Gale cumulation will have in the meantime, however, not only the advantage of the *immediate* availability of this twenty-one-year bibliographical record but also the corollary gain of an *immediate* saving in the time and labor now being expended by catalogers, bibliographers, acquisitions personnel, scholars, and all other users of the present four separate LC-NUC author lists. In fact, the Gale cumulation should increase the productivity of library personnel and other researchers to a degree that its cost will be recovered many times before completion of *Pre-1956 Imprints* by Mansell in 1979.

Twelve or more volumes of the cumulation are scheduled for publication each month, with the entire 152-volume set scheduled for completion by the end of 1969. Production on the initial volumes is now well under way. Total cost of the set is \$2888.00 or a cost per volume of \$19.00.

Write us or call us collect if you want any additional information before placing your order or tentative reservation.
