Evidence Based Library and Information Practice Preserves with the CLOCKSS Archive

© 2011. This is an Open Access article distributed under the terms of the Creative Commons-Attribution-Noncommercial-Share Alike License 2.5 Canada (<http://creativecommons.org/licenses/by-nc-sa/2.5/ca/>), which permits unrestricted use, distribution, and reproduction in any medium, provided the original work is properly attributed, not used for commercial purposes, and, if transformed, the resulting work is redistributed under the same or similar license to this one.

The CLOCKSS Archives is pleased to announce that it has partnered with *Evidence Based Library and Information Practice (EBLIP)* to preserve the e-journal in CLOCKSS's geographically and geopolitically distributed network of redundant archive nodes, located at 12 major research libraries around the world. By archiving with CLOCKSS, *Evidence Based Library and Information Practice* has committed to the preservation of their e-journal. This action provides for content to be freely available to everyone after a "trigger event" and ensures an author's work will be maximally accessible and useful over time.

Denise Koufogiannakis, Editor-in-Chief of the journal notes, "*EBLIP* is pleased to partner with CLOCKSS in order to ensure long-term preservation and access to our journal's content. As an open access and online-only publication, we know that this partnership will strengthen the trust that authors place in *EBLIP* when choosing to publish with us. We value the CLOCKSS Archive's commitment to the preservation of scholarly information, and its collaborative and distributed model for doing so."

CLOCKSS Executive Director Randy S. Kiefer adds, "The CLOCKSS Archive welcomes *Evidence Based Library and Information Practice* into the community's archive. As an open access publication, by archiving with CLOCKSS, they have ensured that the original research and commentary in their publication will remain available to all, now and in the future. CLOCKSS has achieved a rare consensus among libraries and publishers, and we are grateful, as *Evidence Based Library and Information Practice* joins the CLOCKSS Archive, for its generous willingness to preserve the publication in a way that secures it for the long-term good of scholars worldwide."

About CLOCKSS:

The CLOCKSS (Controlled LOCKSS) Archive is a not-for-profit joint venture between the world's leading scholarly publishers and research libraries whose mission is to build a sustainable, geographically distributed dark archive with which to ensure the long-term survival of Web-based scholarly publications for the benefit of the greater global research community. <http://www.clockss.org>
