The EBLIP6 conference will take place in the U.K. at the University of Salford, 27-30 June 2011. The call for abstracts has now closed and the programme committee will be informing potential participants of the outcome of their submission by mid January.

The programme is beginning to take shape with keynotes from Professor Martin Hall (University of Salford), Dr Hazel Hall (Library and Information Science Research Coalition), Dr Ross Todd (Rutgers State University, New Jersey) and Professor Peter Brophy (recently retired from the Centre for Research in Library and Information Management, Manchester). Andrew Booth will be closing the conferences with his perspectives on EBLIP, EBLIP6 and EBLIP in the future.

We are also investigating the possibility of bringing an interactive element to the conference, enabling those who are unable to participate in the full conference, to experience some of the conference online.

A number of U.K. organizations will be providing bursaries to enable participants attend the conference and a list of these and more general conference bursaries is available on the Frequently Asked Questions section of the conference website.
