### 2013 Inaugural APS Health Psychology Conference

5-6 April, 2013

Cairns, Australia

#### Conference Theme: “Improving Community and Individual Health”

The 2013 Inaugural APS Health Psychology conference will feature two days of keynote presentations; individual research papers, posters and symposia; half-day workshops and peer supervision sessions. It will be a great opportunity to gather all your continuing professional development hours, network with colleagues, and hear about recent research in clinical health psychology and health promotion.

## WPA 2013 Bucharest Congress

10-13 April, 2013

Bucharest, Romania

**Conference Theme: “Primary Care, Mental Health & Public Health Integration: The Catalytic Role of Information and Communication Technology (ICT)”**

This first WPA Congress in Romania, is a joint initiative of the World Psychiatric Association in collaboration with the Romanian Association of Psychiatry and Psychotherapy, the National Society of Family Medicine and the Romanian Public Health and Health Management Association.

The Congress will be organized in plenary sessions, symposia, workshops, fora, oral presentations, and posters. The scientific discourse will range from the latest genomics and neurosciences discoveries to health systems' performance, to non-communicable diseases, ICT, telemedicine, integrated care and more. There will also be a WPA Organizational Forum and a first, WPA Intersectional Forum on 21st Century Medical Education: Psychiatry's Role.

## Implications of Research on the Neuroscience of Affect, Attachment, and Social Cognition

18-19 May, 2013

London, United Kingdom

Leading neuroscientists from Europe and the USA will once again host this unique forum exploring the latest neuroscience research with reference to treatments of mental disorders including autism, depression, personality disorders and attachment disorders.

This biannual conference attracted over 300 delegates in 2011 and is organised by the Research Department of Clinical, Educational and Health Psychology, UCL and The Anna Freud Centre, London.

There will be two separate sessions within this conference which will focus on a developmental perspective:

- Session One: Neuroscience of Affect and Attachment.
- Session Two: Neuroscience of Social Cognition.

## 10th World Congress of the International Association for Adolescent Health

11-13 June, 2013

Istanbul, Turkey

### Conference Theme: “Bringing Perspectives From Public Health and Clinical Medicine to Promote Adolescent Health”

Change is urgently needed, both in policy and public health responses and in clinical services for young people around the world. This 10<sup>th</sup> International Congress on Adolescent Health provides a unique opportunity to help catalyze change, bringing together clinicians' detailed knowledge of young people's lives with the broader perspectives of public health. In *Bringing perspectives from public health and clinical medicine to promote adolescent health*, we seek to influence governments, health agencies and founders and clinicians around the world to meet the challenge of improving young people's health.

## 5th Asian Congress of Health Psychology

15-17 August, 2013

Daejeon, Republic of Korea

### Conference Theme: "Health and Happiness"

Eminent scholars will present their recent findings and share their insights on health and happiness. The 5<sup>th</sup> ACHP conference is designed to be the premier forum for the presentation of new advances and research in the fields of theoretical, experimental, and applied health science. The 5<sup>th</sup> ACHP conference will also bring together promising researchers and students in the domain of health psychology from around the world. As accomplished in the previous four ACHP meetings in Japan, Korea and Taiwan, this conference is expected to provide valuable ideas related to how to improve lives by enhancing people's health and happiness.
