17. Care of Fields and Crops: Biology, Conservation, Diversification	56
18. The Use of Competition and Awards for Progress in Home Building and Home Activity.....	64

Reading to Save the Home

by

JOHN C. RAWE, S. J.

THE home, especially when it is on a piece of land, can be a great laboratory which offers daily opportunities for marvelous experimentation and the restoration of some sound domestic economy. In order to get an introduction to the wonders of this laboratory, people must have good practical literature dealing with productivity in homes and with good soil practice.

MOST REV. VINCENT J. RYAN, D. D.

BISHOP OF BISMARCK, NORTH DAKOTA

A KEY

to

PRACTICAL PAMPHLET LITERATURE

for

Homemaking, Home Building, and Productivity in Homes

A BIBLIOGRAPHY OF FIVE- AND TEN-CENT
PAMPHLETS

Quantity prices may be secured for discussion groups. Write directly to publishers for quotations on quantity orders.

What Everyone Should Know About the Home

How to Build It

How to Keep It Productive

How to Make It the Center of Family Ownership

How to Make It the Center of Family Planning

How to Make It the Center of Family Life

How to Make It the Center of Individual and Family
Sanctification

The bibliographies are grouped in sections for the purpose of helping discussion groups and families in selecting certain points related to the home and the land and the community, special points which they may wish to discuss and take action upon. When homes are the spiritual, economic, and social centers for family activity, and when local communities contain natural groupings for families in planning and cooperation in essential economic functions, we have the foundations for a sound, democratic, and organic society and right social order.

- Why I Want My Boy to Be a Farmer, O. E. Baker—Extension Service Circulars 300 and 223, U. S. Dept. of Agriculture, Washington, D. C.

14. EQUIPMENT FOR THE RURAL FAMILY UNIT: FARM BUILDINGS, FARM ENGINEERING, FARM CONSTRUCTION, ETC.

How to Plan the Farm Layout—Bulletin E55, Cornell University, College of Agriculture.

Farm Property Improvement—F. Bulletin 1801, U. S. Dept. of Agriculture, Washington, D. C.

Electric Power on the Farm (pamphlet) — Rural Electrification Administration, Washington, D. C.

Available Agricultural Engineering and Blue Print Plans—Circular 323, South Dakota State Agricultural College.

Laying Out the Foundation for a Building—Circular 41, South Dakota State Agricultural College.

Selection of Lumber for Farm Buildings—F. Bulletin 1756, U. S. Dept. of Agriculture, Washington, D. C.

Space Requirements and Storage Capacities for Farm Structures—Bulletin EC711, University of Nebraska, College of Agriculture.

Small Concrete Construction on the Farm—F. Bulletin 1480, U. S. Dept. of Agriculture, Washington, D. C.

Use of Concrete—F. Bulletin 1772, U. S. Dept. of Agriculture, Washington, D. C.

The Use of Concrete on the Farm—Bulletin E285, Cornell University, College of Agriculture.

Concrete—F. Bulletin 1279, U. S. Dept. of Agriculture, Washington, D. C.

Masonry Barn Design and Construction—Bulletin R207, Iowa State Agricultural College.

The Design and Construction of Masonry Water Supply Tanks—Bulletin B302, Iowa State Agricultural College.

Rammed Earth Walls for Buildings—F. Bulletin 1500, U. S. Dept. of Agriculture, Washington, D. C.

Plans of Farm Buildings for Western States—Miscellaneous Publication 319, U. S. Dept. of Agriculture, Washington, D. C.

Plans of Farm Buildings for North Eastern States—Miscellaneous Publication 278, U. S. Dept. of Agriculture, Washington, D. C.

Bracing Farm Buildings—Leaflet 77, U. S. Dept. of Agriculture, Washington, D. C.

Silos: Types and Construction—F. Bulletin 1820, U. S. Dept. of Agriculture, Washington, D. C.

Electrifying Your Farm (pamphlet) — Rural Electrification Administration, Washington, D. C.

Lighting Equipment for the Farm (pamphlet)—Rural Electrification Administration, Washington, D. C.

Wiring Your Farm (pamphlet)—Rural Electrification Administration, Washington, D. C.

Farmstead Water Supply—F. Bulletin 1448, U. S. Dept. of Agriculture, Washington, D. C.

Electric Wiring for Rural Buildings—Bulletin E257, Iowa State Agricultural College.

Fire Protective Construction on the Farm—F. Bulletin 1590, U. S. Dept. of Agriculture, Washington, D. C.

Protection of Buildings and Farm Property From Lightning—F. Bulletin 1512, U. S. Dept. of Agriculture, Washington, D. C.

Roof Coverings for Farm Buildings and Their Repair—F. Bulletin 1751, U. S. Dept. of Agriculture, Washington, D. C.

Rat Proofing Buildings and Premises—F. Bulletin 1638, U. S. Dept. of Agriculture, Washington, D. C.

Rats and Their Control—Bulletin E353, Cornell University, College of Agriculture.

Construction of Private Driveways—Miscellaneous Publication 272, U. S. Dept. of Agriculture, Washington, D. C.

Building Roads on the Farm—Bulletin E332, Cornell University, College of Agriculture.

The Electrified Farm (pamphlet)—Rural Electrification Administration, Washington, D. C.

How to Use Electricity on the Farm—Bulletin E410, Cornell University, College of Agriculture.

- Painting on the Farm—F. Bulletin 1452, U. S. Dept. of Agriculture, Washington, D. C.
- Outside Paints and Painting—F. Bulletin 227, Iowa State Agricultural College.
- Selecting and Applying Paints—Bulletin EC732, University of Nebraska, College of Agriculture.
- Electric Fencing—Circular C-2, University of Nebraska, College of Agriculture.
- Farm Machinery—Its Purchase, Operation and Adjustment—Circular 309, University of Illinois, College of Agriculture.
- Adjustment and Repair of Farm Machinery—Bulletin EC 739, University of Nebraska, College of Agriculture.
- Grinding the Farm Tools—Bulletin E378, Cornell University, College of Agriculture.
- The Use of Logs and Poles in Farm Construction—F. Bulletin 1660, U. S. Dept. of Agriculture, Washington, D. C.

- Longer Durability for Fence Posts and Farm Timbers—Bulletin 109, Iowa State Agricultural College.
- Simple Hitches for Farm Use—Bulletin 740, University of Nebraska, College of Agriculture.
- The Farm Shop and Tool Equipment—Bulletin E108, Cornell University, College of Agriculture.
- Rope and Its Uses—Bulletin E24, Iowa State Agricultural College.
- Practical Use of Rope on the Farm—Circular 301, University of Illinois, College of Agriculture.
- Tying Knots and Splicing Rope—Bulletin J13, Cornell University, College of Agriculture.
- Big Teams on Farms—Circular 355, University of Illinois, College of Agriculture.
- Better Plowing—Circular 450, University of Illinois, College of Agriculture.

Plow Adjustment—Bulletin E381, Cornell University, College of Agriculture.

Tractor Repair and Maintenance—Circular 499, University of Illinois, College of Agriculture.

Soldering—Bulletin E57, Cornell University, College of Agriculture.

Storage in Farm Structures

Farm Bulk Storage of Small Grains—F. Bulletin 1636, U. S. Dept. of Agriculture, Washington, D. C.

Space Requirements and Storage Capacities of Farm Structures—Bulletin EC711, University of Nebraska, College of Agriculture.

Corncribs—F. Bulletin 1701, U. S. Dept. of Agriculture, Washington, D. C.

Corn Storage Buildings—Bulletin E262, Iowa State Agricultural College.

How to Stop Weevil Damage in Stored Grain—Circular 489, University of Illinois, College of Agriculture.

Silos: Types and Construction—F. Bulletin 1820, U. S. Dept. of Agriculture, Washington, D. C.

Storage of Vegetables—F. Bulletin 879, U. S. Dept. of Agriculture, Washington, D. C.

Potato Storage and Storage Houses—F. Bulletin 847, U. S. Dept. of Agriculture, Washington, D. C.

Storage of Apples—Bulletin E440, Cornell University, College of Agriculture.

15. EQUIPMENT FOR LIVESTOCK: HOGS, SHEEP, CATTLE (BEEF AND DAIRY), POULTRY, ETC.

Hogs:

Practical Hog Houses—F. Bulletin 1487, U. S. Dept. of Agriculture, Washington, D. C.

Hog-Lot Equipment—F. Bulletin 1490, U. S. Dept. of Agriculture, Washington, D. C.

Movable Hog Houses—Circular 320, University of Illinois, College of Agriculture.

Construction of Self-Feeders and Use in Pork Production—Circular 319, University of Illinois, College of Agriculture.

Sheep:

Equipment for Farm Sheep Raising—F. Bulletin 810, U. S. Dept. of Agriculture, Washington, D. C.

Cattle for Beef:

Beef Cattle Barns—F. Bulletin 1350, U. S. Dept. of Agriculture, Washington, D. C.

Feed Lot and Ranch Equipment for Beef Cattle—F. Bulletin 1584, U. S. Dept. of Agriculture, Washington, D. C.

Cattle Feeding Barns and Shelters—Bulletin 74, Iowa State Agricultural College.

For the Dairy:

Farm Dairy Houses—F. Bulletin 1214, U. S. Dept. of Agriculture, Washington, D. C.

Dairy Barn Construction—Bulletin 1342, U. S. Dept. of Agriculture, Washington, D. C.

The Safety Bull Pen and Shed—Bulletin 187, Iowa State Agricultural College.

Principles of Dairy Barn Ventilation—F. Bulletin 1393, U. S. Dept. of Agriculture, Washington, D. C.

Length and Floor Construction of Dairy Stalls—Bulletin R150, Iowa State Agricultural College.

The Use of Waterbowls in the Dairy Barn—Bulletin 292, Iowa State Agricultural College.

Building and Remodeling Dairy Barns—Circular 478, University of Illinois, College of Agriculture.

Combination Grain and Mash Trough—Bulletin E243, Cornell University, College of Agriculture.

Silos: Types and Construction—F. Bulletin 1820, U. S. Dept. of Agriculture, Washington, D. C.

Inexpensive Cooling Tanks for Milk and Cream—Bulletin EC725, University of Nebraska, College of Agriculture.

Milk-House Construction—Bulletin E330, Cornell University, College of Agriculture.

Buildings and Equipment for Poultry:

One-Room Brooder House—Bulletin 144, Iowa State Agricultural College.

A Colony Brooder House That Starts Chicks Right—Circular 291, University of Illinois, College of Agriculture.

Poultry Equipment—Circular 506, University of Illinois, College of Agriculture.

Directions for Building the Straw Loft Poultry House—Circular 501, University of Illinois, College of Agriculture.

Straw Loft Poultry House—Bulletin 146—Iowa State Agricultural College.

Laying-House Equipment—Bulletin 147, Iowa State Agricultural College.

Poultry Houses and Fixtures—F. Bulletin 1554, U. S. Dept. of Agriculture, Washington, D. C.

Brooding Chicks Under Electric Hovers — Bulletin E366, Cornell University, College of Agriculture.

Poultry Range Shelter—Bulletin E280, Cornell University, College of Agriculture.

Outdoor Poultry Feeder—Bulletin 373, Cornell University, College of Agriculture.

The Ventilation of Poultry Laying Houses—Bulletin E315, Cornell University, College of Agriculture.

16. EQUIPMENT FOR THE RURAL FAMILY UNIT: CARE OF LIVESTOCK—BREEDING, GROWING, FEEDING, MANAGEMENT, ETC.

Horses:

The Farm Horse—Its Feeding, Care and Breeding—Circular 424, University of Illinois, College of Agriculture.

Care and Management of Farm Work Horses—F. Bulletin 1419, U. S. Dept. of Agriculture, Washington, D. C.

- Horse-Breeding Suggestions for Farmers—F. Bulletin 803, U. S. Dept. of Agriculture, Washington, D. C.
- Breaking and Training Colts—F. Bulletin 1368, U. S. Dept. of Agriculture, Washington, D. C.
- Care and Feeding of Horses—Bulletin E250, Iowa State Agricultural College.
- How to Select a Sound Horse—F. Bulletin 779, U. S. Dept. of Agriculture, Washington, D. C.
- Breeds of Draft Horses—F. Bulletin 619, U. S. Dept. of Agriculture, Washington, D. C.

18. THE USE OF COMPETITION AND AWARDS FOR PROGRESS IN HOME BUILDING AND HOME ACTIVITY

In Tennessee, Mississippi, Arkansas, and Missouri through the "Plant to Live and Prosper" competition and to some extent in Nebraska through the "Pasture-Forage-Livestock" competition, people on farms and people in smaller communities, young and old alike, have created interest and achieved striking results in better homes, better domestic economy, better community cooperation, better land utilization. This competition is centered around an annual program. Each family participating keeps its own record, to be based on the following points:

40% for "living at home";

20% for soil conservation;

- 20% for diversification;
- 20% for home improvement;
- 100%—perfect score.

Tenant families are not in a position to compete with owner families on these points. Hence separate contests are conducted, one for tenant families, another for owner families. County judges select the county winners. State judges select the state winners. For further information write to Walter Durham, Memphis Commercial Appeal, Memphis, Tennessee or to the Memphis Chamber of Commerce Agricultural Committee.

Similar contests, conducted on a smaller scale, can be held in any community and directed by local leaders. We suggest that farm families divided into proper competing groups such as tenants or owners according to first, second, or third year of competition, etc., work out a score card and record book for each participating group. Special record books may be printed or simple composition books may be used for the purpose of keeping the annual record of achievement according to the following points:

HOMEMAKERS

in families on the homesteads (in the country on the farm).

USING RESOURCES (spiritual and material) MORE EFFECTIVELY IN FAMILY LIVING

- Family Activity (spiritual, social, economic)
- Better Housing
- Better Food Plans
- Better Ways of Farming
- Better Ways of Spending

20% 1. Family Activity in Family Life

Home, the center; family prayer; family cultural advance and active interest in rural life as presented by the National Catholic Rural Life Conference; family recreation at home; etc.

10% 2. Family Activity in the Rural Parish Life

Liturgical, holy Mass the center.

10% 3. Family Activity in Cooperative Rural Community Life

Parish, the center; rural family clubs, rural Sodalities, 4-H

clubs, credit unions, cooperatives, *i.e.*, neighborhood co-ops for marketing farm products and for buying industrial goods.

10% 4. Home working conditions—family planning, organization of rural equipment and rural work, sanitation, water supply, good use and arrangement of convenient kitchen and convenient home appliances for home production and care of family food supplies: gardens, fruits, sufficient variety in sufficient quantities, fruit cellar, home food storage space, home meat supply, home poultry supply, etc.

10% 5. Home Beautification

Landscaping, orderliness, attractiveness, comfort, convenient arrangement of things for productivity, not merely for ornamentation.

10% 6. Use of home labor and materials in building and repair projects on the farmstead.

10% 7. Home Record Keeping

Budgeting, planning, and recording family expenditures: thrift; avoidance of excessive debt; study and use of consumer-buying guides, etc.

10% 8. Family Cooperation—in care and production of crops and animals; in family spiritual projects; in home recreational projects; etc.

10% 9. SOIL-CONSERVING, SOIL-BUILDING, AGRICULTURE

All due consideration and observance of the laws of growth and the laws of life: biodynamic, diversified agriculture, balanced and carefully planned relationships between human beings, animals, plants, and soil; farm productive the whole year round; COMPOSTING of manure and other organic matter before use on fields. Contour plowing and contour planting of crops, water conservation, construction of drop-in-let dams, tree planting, care of trees, etc.

Total: 100% Score Card for Contest.

In developing family and group action on the points indicated above, order some of the pamphlets indicated in the bibliographies.

Further a special contest may be worked out among the homemakers in the small towns and in the suburbs of the large cities. Many of these homemakers have some gardening in their home

program already. Many others are in a position to acquire some land and take up a gardening program. A score card and family record book can easily be worked out for them too. Homemaking contests can be conducted with far-reaching success—even in city homes—when domestic production is studied.

For such groups of homemakers in the smaller communities and in the suburbs of the larger cities we suggest the following points for a competition basis:

HOMEMAKERS

In small communities and in the suburbs of the larger cities.
USING RESOURCES (spiritual and material) MORE
EFFECTIVELY FOR FAMILY LIVING

Family Activity (spiritual, social, economic)

Better Housing

Better Food Plans

Better Ways of Spending

20% 1. Family Activity in Family Life

Home, the center; family prayer; family cultural advance and active interest in home projects; family recreation at home; etc.

10% 2. Family Activity in Parish Life

Liturgical, holy Mass the center.

10% 3. Family Activity in Cooperative Community Life

Parish, the center; neighborhood family clubs, Sodalties, credit unions, cooperatives, *i.e.*, neighborhood co-ops for marketing and buying, etc.

20% 4. Home Working Conditions

Family planning, organization of equipment and work, sanitation, water supply, good use and arrangement of convenient kitchen and convenient home appliances for home production, or at least processing, cooking, canning, and storing of some family food supplies; gardens for some vegetables and some fruits; some provision for some home storage; keeping a cow or goat, keeping some chickens for home supply or poultry products, etc.

10% 5. Home Beautification

Landscaping, orderliness, attractiveness, comfort, convenient arrangement of things for productivity, not mere ornamentation.

10% 6. Use of home labor and perhaps some home materials

in the building and repair projects in the productive homes of the smaller communities.

10% 7. Home Record Keeping

Budgeting, planning, and recording family expenditures; thrift; avoidance of excessive debt; study and use of consumer-buying guides; etc.

10% 8. Family Cooperation

In family spiritual projects; in home recreational projects; in home productivity projects related to home food care and preparation, garden production, home crafts, home hobbies, home work, etc.

100% Score Card for Contest.

In developing family and group action on the points indicated above, order some of the pamphlets indicated on the bibliographies.
